Nothing totes like a FORD wagon!

Trust America's Station Wagon Specialists to come up with a wagon that rides like a limousine yet carries like a truck!

Look at those new, longer, lower lines... that elegant hardtop styling! Who'd ever think that these six beauties are the workingest wagons in the land. Well, they are! And here are a few reasons. First, Ford's wrap-around liftgate allows loads that are up to 10 inches wider, and Ford wagons are as much as 2 inches higher inside than competition. Both of Ford's rear gates open instantly with one operation. Ford seats fold into the floor in a flash. Come in and learn all the things that make Ford wagons the Number One wagon in America.

Over 13 more cubic feet of easy-to-get-at loadspace. Ford wagons are over 5 inches longer over all, too.

One hand opens it in seconds. And you can leave the liftgate closed if you wish.

The only wagon with Thunderbird V-8 power. Top performance at the speeds where you need it most.

A ride that adjusts itself. Ford's rear springs adjust automatically to changing roads or loads.
