June is strawberry month all over the country! Every Oregonian should be prepared to enjoy red, juicy, vine-ripened Oregon strawberries which are expected to reach peak supplies in local markets in June.

Oregon growers expect to offer one of the most attractive crops to consumers both in quality and abundance, report food marketing specialists, OSC. Although most of the berries from Oregon's 15,000 acres will go into processing, consumers will find plenty of fresh berries at local markets or can buy them field fresh on a u-pick-basis.

How the strawberry "looks" is the key to wise selection, agents continue. Solid, bright red indicates ripeness. Berries with white tips or spots are probably immature, and usually tart. Flavor depends on variety and ripeness, not size. Smaller fruit often is fuller flavored and provides more servings.

Berries should be dry and clean looking. Once selected, protect quality. After purchasing, rush them home to the refrigerator. Quicker fresh strawberries are used, the better they taste. For brief storage time, gently pour berries onto a platter, sort well, and place in the refrigerator. Leave caps on until time to use, then wash. Wash berries quickly and gently in a bowl of cold water. Lift berries from the water, straining through your fingers; this permits sand and dirt to sink to the bottom of the bowl. After washing, decap them; berries lose flavor, color and nutrients if they are left to soak.

Strawberry shortcake, the "piece de resistance" in grandmother's day, continues as a no. 1 family favorite. Home economists offer these serving suggestions: (1) Combine berries with pineapple chunks. Serve in a nest of crisp lettuce. Top with

whipped cream or fruit dressing. (2) Pass whole berries, with tops, with a bowl of brown sugar and one of sour cream. Guests dip first in sour cream, then brown sugar. (3) Top breakfast cereal with strawberries and cream. Glazed with sugar syrup, strawberries shine in strawberry pie.

WHAT'S DOING

With more and more cars on the road, safe driving is a big part of any telephone man's job. Take our telephone installers for example. Each installer takes a special course in "defensive driving" before he gets behind the wheel of any telephone company car or truck. And to make sure he doesn't forget the things he's learned, he takes a check-up ride periodically, and a complete driving test every 2 years. What's more, he even has his eyes tested every 3 years. Other telephone people who drive company cars also get training in "defensive driving". This extra care helps us to be better drivers and do our part to make the streets safer for everyone. And we believe we serve you best when we serve you safely.

Summertime is a popular time for moving. And if you're planning to move soon, here's a reminder. When we install your new service, we're glad to put in an extension phone (or two or three) at no extra installation charge. The charge to move your present phone covers the installation cost of all the extensions you'll need in your new home. Pacific Telephone
