**Grain Warehouses Required to Insure Deposits on July 1**

Effective July 1, all grain warehouses licensed by the state department of agriculture must fully insure the market value of grower grain deposits. The insurance must be against loss by fire, lightning, inherent explosion, windstorm, cyclone or tornado.

The only exception, and it applies to individual depositors, is grain for which the depositor waives the insurance requirement. Any person who does not wish his grain insured by the warehouse must notify the warehouse operator in writing to that effect.

This is a new provision in the 1959 amendments to the Oregon public grain warehouse act. Evidence of insurance coverage must be approved by and filed with the department at the time the annual license is renewed on July 1. The insurance requirement is in addition to bonding feature which has been in effect for some time.

If a warehouse license has expired or been revoked or if the full amount of bond has not been filed and approved and no insurance received, the 1959 act stipulates that the warehouse must post this sign: "This is not a Licensed or Bonded Grain Warehouse." The sign is to remain in place for at least a year.

Another change effective July 1 gives the department the right

**CHEVY BESTS**

Independent experts and official facts and figures prove Chevrolet's ahead of its field in seven big ways.

**BEST BRAKES**... In direct competitive tests of repeated stops from highway speeds, conducted by NAS-CAR\*, Chevy out-stopped both the other leading low-priced cars—and why not? Chevy brakes are far larger, built with bonded linings for up to 66% longer life. **BEST TRADE-IN**... Check the figures in any N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two." **BEST STYLE**... Popular Science magazine sums it up: "The fact is, in its price class the Chevy establishes a new high in daring styling..." It's the only car of the leading low-priced three that's unmistakably modern in every line. **BEST ECONOMY**... No doubt about this: two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car. **BEST ROOM**... Official dimensions reported to A.M.A.‡ make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars. **BEST ENGINE**... Every motor magazine has given Chevy's standard and Corvette V8's unstinted praise. As Sports Cars Illustrated puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." **BEST RIDE**... You'll be able to tell this yourself, instantly. But Motor Trend magazine expresses it this way: "... the smoothest, most quiet, softest riding car in its price class."
