## "Nine Tenths Of Wisdom Consists Of Being Wise In Time"

Wisdom is the ability to judge the facts and do the right thing at the proper time. When you are sick, wisdom dictates that the time a cure can be more easily accomplished is at the very first sign of trouble. To delay gives an attacking germ or virus the opportunity to multiply and ravage your body.

At the very first sign of any illness, be wise. Consult your physician. Let him diagnose the cause and prescribe the proper medicines he judges will help you most. You will save much sickness - time and add years to your life.

**OBEY THE FIRE LAWS!**

*Vacation bound?*

Chances are you'll be driving in and through forested country. When you are, remember: ALWAYS BE CAREFUL WITH FIRE. One match or cigarette carelessly dropped . . . one campfire left untended . . . can start a fire that could burn a forest. Flames will turn a beautiful green forest into ugly, blackened ruin in minutes. Have fun on your vacation, but do your part—Keep America Green . . . Leave America Green.
