Hospital Tales

By RITA WOLFF

Have you noticed any extra help at the hospital wearing perky lemon-yellow pinafores? These are the auxiliary members in their gay new cotton uniforms. The outfits are available to all the hospital auxiliary members and can be ordered through Mrs Velma Glass, Mrs Charles Jones or Mrs W C Rosewall for a mere \$3.99. It is hoped all members working in the hospital will wear the new uniforms.

Three Lexington high students have been helping at the hospital with switchboard service. Paula Barak is training Carol Ann Palmer and Charlene Jones in telephone service for evening and Sunday duty.

Mrs Eva Gean Caudry has returned from a month's leave of absence during which she toured Great Falls, Montana, Yellowstone National Park, Coeur d'Alene and Lewiston and on to her home in Boise. Friends at the hospital have been threatening reprisals for her forgetfulness! Seems she spent an hour and a half in Frontier Town, Montana, buying cards and souvenirs and then somehow never mailed them! While in Boise she enjoyed a surprise visit from friends from Albuquerque, New Mexico.

Mr and Mrs M O Storro with their family have left for a week's vacation at Priest Lake. While there they will visit Mrs Storro's brother and his family.

Mr and Mrs Ray Bailey have left on a ten day trip to Yellowstone National Park.

Mrs Hubert Wilson is helping in the kitchen at the hospital while Mrs Mildred Morris is recovering from surgery.

Mrs Ethel Rose has been visiting in Grants Pass, Oregon for a week.

Mrs Fern Henkes of College Place, Washington, is a new nurse at the hospital.

The new projector donated by the hospital auxiliary has been used at each of the last hospital employee meetings. Movies on evacuation of patients and fire fighting and precaution were shown tying in with Civil Defense program and preparation of food and staff infection will be seen next Monday. The meetings are held the second Monday of each month at 8 p m in the recreation room.

Mrs W C Rosewall and Miss Leta Humphreys were Heppner representatives on mending detail. This week Lexington ladies will sew at the hospital. Two or three women at a time could constitute a team to sew, press and fold linens. Any auxiliary members free to help with hospital sewing can call Mr Bongers for a suitable hour.

The next meeting of the Hospital Auxiliary will be at 2:30 p m on Tuesday, September 8th, in the Bank of Eastern Oregon meeting room.

Baking "cookies" for better roads

"Cookies" of asphalt paving are baked and frozen in our laboratories, so we can measure how highways wear in all types of weather.

The man is William H. Ellis, one of Standard's scientists who conduct many such tests to improve highway materials and construction methods. We actually build roads, subject them to crushing pressure, try out many paving mixes, work closely with highway engineers.

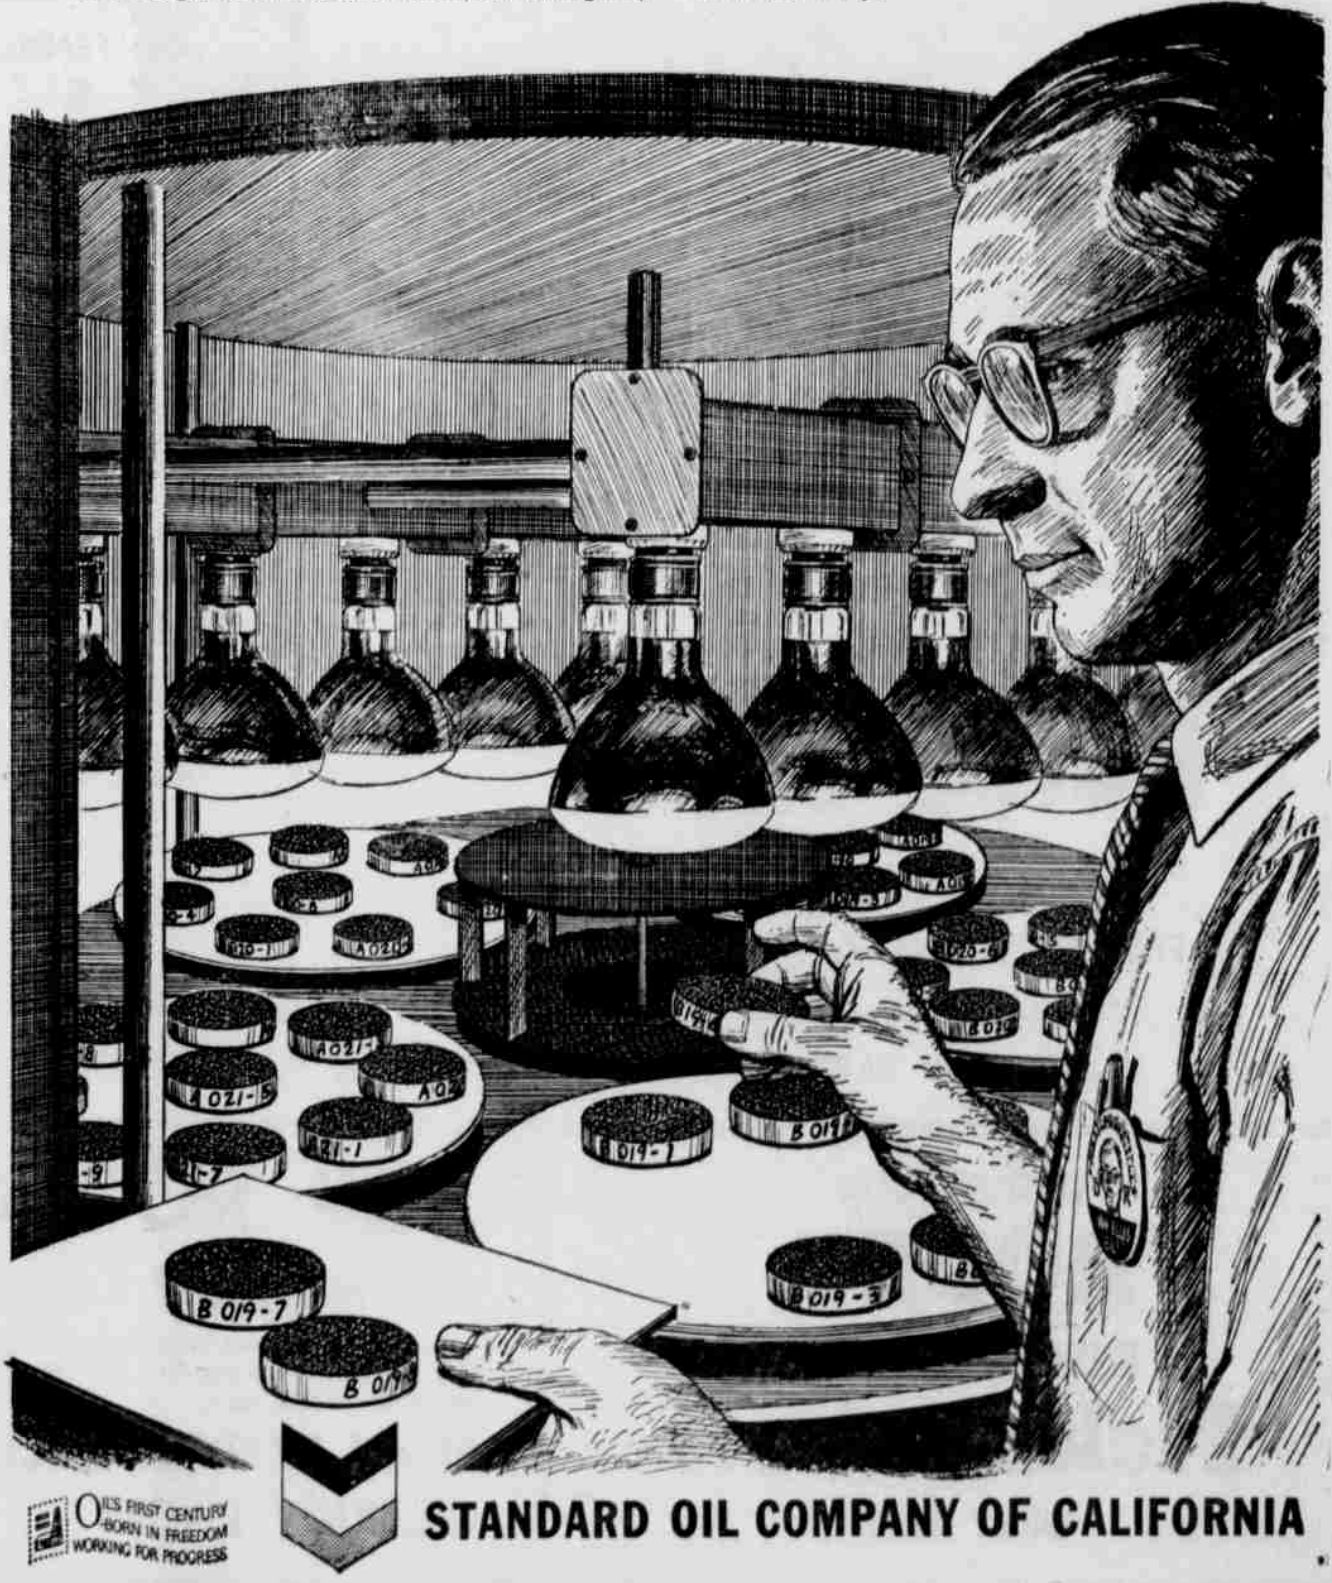

Our work benefits you both as a motorist and a taxpayer. Asphalt costs less than any other pavement . . . three miles of highway for the cost of two. You also get roads that resist skids, cut down glare,

make lane markers easier to see . . . roads which are smooth, quiet and comfortable.

Asphalt roads are ready for use within hours after laying . . . cost less to maintain and can be even stronger and better after years of service.

By such continuing research that brings you better products at lower cost, the people at Standard are planning ahead to serve you better.

Standard's asphalt products are made and sold by American Bitumuls & Asphalt Company, a wholly-owned subsidiary.
