Polio Shots Urged On All Residents

The local chapter of the National Foundation is urging those who haven't had polio shots to have them now while there is vaccine available. September is a peak polio month and everyone from babies to persons 40 and older should be protected, the county health office said this week.

Chapter officers state that many mothers and fathers are careful to have their children protected, but forget about themselves.

For those who have had three shots, a booster is recommended one year after the third shot for further immunity.

Vaccine is available to all local physicians.

DAVID EPPS SCHOLARSHIP
A \$500 physical education scholarship in memory of David C Epps of Sweet Home late state Democratic chairman, has been established by Senator and Mrs Richard L Neuberger.
The Neuberger said the money for the scholarship was from income he received for a recent article, "When I Learned I Had Cancer," he wrote for Harper's magazine.

The senator specified that there shall be no religious, political, color or sex limitations on applicants for the scholarship. Neuberger has provided similar funds from his writing income at 12 colleges.

KHRUSHCHEV SHOULD SEE

Here are the recommendations, as voiced in the Senate by Senator Neuberger in answer to the question what should Khrushchev see in America?
1. The National Institute of Health at Bethesda, Md., where skilled researchers are seeking the answers to diseases which afflict Russians as well as all members of the human race.
2. A typical American grammar school anywhere in the land

so that he may know himself that American children are no different from the children of his vast nation.

3. The Grand Canyon of the Colorado, because no human being can see this spectacle without feeling awe at the handiwork of He who created Russians and Americans and all other peoples.

4. A religious service at some small rural church in hinterland America, so that he may at least experience the spiritual atmosphere which moves the people of the U S.

POLITICAL SQUEAKS

Rumor is prevalent that Governor Hatfield will ask for the resignation of Julius R Jensen, director of the Department of Planning and Development.

Peter Gunnar, State GOP Chief and Senator Neuberger evidently know all about gas and mileage. They are having an ante-over newspaper scrap, accusing one another of various small-time practices. Percentage wise Gunnar is getting the most publicity, which he can use, while Senator Neuberger never gets off page one.
