WHEAT NEEDS NITROGEN!

FERTILIZED WHEAT

UNFERTILIZED WHEAT

Other than moisture, nitrogen is the most important factor influencing yields of wheat and other small grains. Phillips 66 Agricultural Ammonia is 82% nitrogen... more nitrogen per dollar than you can buy in any other form of commercial fertilizer.

This concentrated nitrogen fertilizer helps increase yields of heavier grain with more kernels per head and with higher protein content. Phillips 66 Agricultural Ammonia saves time because it's easy to handle and can be applied at the same time you prepare or cultivate your land. Get higher yields and bigger profits using Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.
