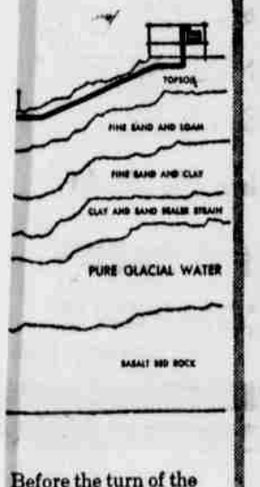
The buried treasure of Tumwater



Before the turn of the century, buried treasure was discovered at the little town of Tumwater in Washington State. The treasure was water! A *most unusual water*. A water so fresh and pure that it was *naturally perfect* for brewing just as it flowed from the earth. It was here that the Olympia Brewing Company was founded. And today, over sixty years later, the water continues to flow in unlimited quantity from deep artesian wells with the precise character for perfect brewing. Rarely, in all the world, has such a water been discovered. It is this extraordinary brewing water that *blends in* and *brings out* the more delicate flavors of choice hops and grains . . . creating a refreshingly different beer of unchanging excellence and rare good taste.
