## WHEAT NEEDS NITROGEN!

FERTILIZED WHEAT

UNFERTILIZED WHEAT

Other than moisture, nitrogen is the most important factor influencing yields of wheat and other small grains. Phillips 66 Agricultural Ammonia is 82% nitrogen... more nitrogen per dollar than you can buy in any other form of commercial fertilizer.

This concentrated nitrogen fertilizer helps increase yields of heavier grain with more kernels per head and with higher protein content. Phillips 66 Agricultural Ammonia saves time because it's easy to handle and can be applied at the same time you prepare or cultivate your land. Get higher yields and bigger profits using Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.

# PRESENTING FOR 1960... BUICK'S ALL-TIME BEST

**THE TURBINE DRIVE BUICK '60**

A car with major advances in transmission, suspension, brakes, and engines which are Buick's alone today. A solid, substantial car • A car of superb comfort, quiet, reliability • A car you should drive soon

**New comfort, quietness, and quality**

Doors that open wider—easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in America due to Buick's high use of insulation and torque-tube drive. Buick's quality control program comes to a peak in the Turbine Drive Buick '60.

**New interior decor and convenience**

An entirely new "Mirromagic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety option—the Twilight Sentinel\*—that turns headlights on automatically at sunset... off automatically at sunrise. All-new colors and fabrics. Richer appointments. \*At slight extra cost.

**Outstanding performance with economy**

1. Buick's Exclusive Turbine Drive Transmission is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion.

2. Buick's Exclusive Air-Flo Aluminum Drum Brakes—found on no other American car. Fin-cooled drums front and rear for faster cooling. Fast cooling means safer stopping, longer brake life.

Slotted wheels pass a current of air from under the car constantly over the brakes for added cooling efficiency. (Wheels are 15" size which gives you up to 1/3 more tire life.)

3. Buick's exclusive Wildcat Engines give high efficiency with high economy. (An optional new LaSabre Engine is designed to give Buick performance on regular grade fuel.)

\*Optional at extra cost on LaSabre, standard on Invicta and Electra.
