### SAVE THIS MAP IN CASE OF PUBLIC DISASTER

The Consulting Engineers Association of Oregon, as a public service project, has set up a Public Disaster Committee. To help immediately in case of a disaster, Oregon has been divided into seven districts and a disaster contact engineer has been appointed in each district. The districts, engineers and their telephone numbers are shown on the above

map. In case of a public disaster, like the Roseburg explosion of last August, a call to the disaster contact engineer in your district will bring immediate help to determine what buildings and utilities are safe and for how long. Clip out this map for use in case of a future emergency.
