 Mr and Mrs Milton Morgan made a business trip to Portland Tuesday.
 The famed ballet of Moscow's Bolshoi Theater grew out of a dancing class organized in 1773 for homeless children in a Moscow orphanage.

Careful Selection Of Children's Books Is Recommended

If a book or book set is on your list for Christmas "stocking stuffers", choose one to fit the child's age. Some books may be ageless but the youngster's aren't, reminds Miss Esther Kirmis, Morrow county extension agent.
 She says well-meaning parents and relatives often select books that are too advanced for their youngsters. They choose books for pre-schoolers, which they recall as favorites, but which they probably read at 8 or 9. There is little excuse for choosing books that are "too old" for the child for bookshelves are full of selections tailor-made for pre-school children.
 Some families, buy books and even book sets suitable for the school-age child, while children are still babes. By the time youngsters are old enough to read them much of the contents is dated. Every book is written for a select age group. Suggested ages are often listed inside book jackets. Lists of recommended reading for various age groups are also available from libraries and bookstores.
 When shopping for books by mail, study advertisements carefully, Miss Kirmis advises. Buy from reputable salesmen and well known companies. If in doubt, ask librarians for suggestions. Some companies offer to send "typical examples" of their books, which may turn out to be selected samples of their best. Beware of advertising that pushes books that fit a wide age span, such as "6 to 16." What's simple enough for the 6 year old is usually dull reading for the teenager.
 Consider use books will receive. For example, if shopping for a music book, select a size and soft cover, that will be easy to use on a music or piano rack.
 Families considering purchase of book sets—encyclopedias, music volumes, nature series, story-book tales, adventure, or travel series—should compare cost of "sets with what they could purchase in individual books. Families sometimes end up buying a lot of books to get one or two that are finally used.
 Don't expect one set of books to answer all the child's reading needs. Encyclopedias sets contain a limited amount of information on a number of topics.

Monument

By MARTHA MATTESSON
 Mr and Mrs Henry Cupper took their son Hank back to La Grande Sunday. While there they visited their daughter, Mrs Joe Batty and family. They returned home Monday evening.
 The Lynch Logging company, who logs for Hudspeth Logging Co of Prineville, finished last week on the Barnard King ranch and moved to the Joe Wheeler place on Cottonwood.
