Our Christmas meeting was a very enjoyable one last Saturday evening at the beautifully decorated ranch home of Mr and Mrs Harold Evans. Many of the Christmas decorations Mrs Evans had made herself and they were certainly lovely.

During the business meeting Mrs Evans was unanimously elected as secretary-treasurer and our president, Walter Edger, appointed the following officers: program chairman, Randall Peterson; field trip chairman, Hubert Wilson; club reporter, Betty Wagner.

Randall Peterson had an interesting evening planned, guessing games and an excellent film. In one game the names pertaining rocks or their formation were spelled in scrambled fashion. Our "star pupils" Mrs Walter Edger and Dr Wagner, tied for first place. Take a try at these words: it's lots of fun: eiajdt, insectree, mppguys, slutrquoe. Then Randall read descriptions of rocks and we were to name the rock described. This was a real memory sharpener. Following this, a basket full of gaily wrapped "gifts", contributed by club members, was passed around and everyone received a "new" rock or slab to add to his collection.

The film, Mr Bell, depicted a lifelike portrait of the great inventor, Alexander Graham Bell, as he looked, talked and thought when his dream came true! Our delightful evening together was concluded with refreshments served by Mr and Mrs Evans.
