TO THE EDITOR...

To The Editor:

It's time someone pointed out that our school problems in this county are really the result of a concentrated effort by the National Education Association to socialize elementary and secondary public schools. Complete socialization could simply mean direct Federal supervision and control. All this is in the name of better education for our children and their propagandizing is so cleverly engineered that anyone opposing this step by step socialization program, even at the local level, might as well declare himself in favor of all evil and against all good.

One step toward socialism in our schools was the passage of the School District Reorganization bill by the 1957 Legislature. It has had the effect only to confuse voters and increase school costs, thereby uncovering a supposedly dire need for more Federal action.

Nevertheless the School District Reorganization Act has, at best, only very limited application in this county, and one can hope that it will be repudiated by the voters in November when the issue will probably be on the ballot by initiative petition.

Socialized education would obviate the need for school boards and local control. Observing some of the action of school boards illustrates why this socialization process has progressed so far as it has, for it spreads best where there is confusion and uncertainty.

The recently approved serial levy is, in my opinion, a poor solution to our classroom shortages. Perhaps as some say, it is better than nothing. But why should the 1200 school children in this county be saddled with a mere "better than nothing" solution? In any event it will give one administrator approximately \$500,000.00 to spread over

of the project.

The City Council reserves the right to reject any or all bids and accept that bid deemed to satisfy the requirements of the City of Boardman. Bids must be submitted in writing before 8 p. m., April 30, 1960.

the county with virtually no restriction or guidance from a helpless school board.

Like other districts, we have our problems and I am confident that if all voters in this county would become sufficiently interested, we could take care of our problems and our children. It would be unwise to conclude that a Bureau in Washington could do it better. To permit a socialized school system to be forced upon us could result in a brainwashing of our children from which it might take a long time to recover.

Dear Sir:

First, may we commend you for all the free publicity you do give to the churches of our county and especially for that you've given to us. Thank you—we appreciate it.

There needs to be a small correction made in the last week's paper under the lone column, however. Somehow, we were mistakenly called the "lone Baptist Bible Church." Since we are a newly formed group and we've received several calls on it. We felt we should correct this. It is just lone Bible Church, a non-denominational group of Christians worshipping together and studying the Word of God. We don't know how this happened but we'd appreciate it if a correction would be made.

Thank you.

Sincerely,
Rev Mr and Mrs J W Riley

County Agent's News

By NELS ANDERSON

A call from Dr L E Bodenweiser, state veterinarian on Monday of this week resulted in the scheduling of a meeting for Morrow County Livestock Growers for Tuesday evening, May 10. This meeting, one of a series in the state will be for the purpose of explaining the newly initiated cull and dry cow testing program which will provide the means for recertification of Brucellosis accredited counties. Explained at the meeting, will be the responsibilities of the livestock operator, salesyards and others involved to

make the program work. The state and federal veterinarians have developed this method as a part of the state-federal cooperative Brucellosis eradication program to test cull and dry cows on the way to or during slaughter. This test was recently successfully used to recertify Benton county, Washington. By using this method, 92% of on the ranch testing was eliminated. Watch for further information on the meeting but mark it "must" meeting to attend. The meeting will be held at the Fair Annex building at 8 p. m.

"Government programs for agriculture for wheat" is the title of a bulletin recently published by Oregon State College that we have heard many comments on by farmers who have taken the time to look it over. A well written bulletin, it discusses possible solutions to the national wheat surplus problem. If you have not seen a copy of the bulletin, you can have one by writing or calling at the county agent's office.

More Than Color Blind When It Comes to "Red"

"Red" Dolan has been going to painting class at night at the high school. They had an exhibition and we all went to see what Red had done.

Red's painting was one of the most beautiful there. We stared at it for the longest time, then all agreed it was a painting of a field close to town, and that it showed a woman in the distance who looked a lot like Red's wife. We congratulated our artist on his work. Red smiled, thanked us all, and was quite happy.

When he left, Slim Johnson noticed the title card by the
