## WHAT'S DOING

Here is exciting news for our Heppner customers. We're introducing a handsome new telephone called "The Princess." Hardly bigger than your hand, the Princess takes only about half the usual space. When you lift the receiver, the dial lights up. Or at the flick of a switch, the

dial glows as a soft night light so you can find the phone easily in the dark. The Princess comes in attractive colors that are perfect for any room in your home—white, beige, pink, blue and turquoise. This new extension phone costs just pennies a day after a one-time charge. You can see and try it out at our business office, and you can order it there or through your telephone service man.

Oregon State Fair time is just around the corner again—September 2 to 10. If you're planning to go, we hope you'll visit the Pacific Telephone—Northwest exhibit there. It'll give you a chance to look over many of our different services now available. And I think you'll also be interested in the display of phones of the past and the future. (Kids will get a big kick out of hearing their own voices over a special phone.) So all the telephone people here hope you'll visit Pacific Telephone—Northwest at the State Fair in Salem and see how we're working to serve you and your family.

New home builders are finding it's a good idea to start planning for telephones right from the blueprint stage.

That way, they can have built-in wiring all ready for the phones they want now—and the ones they'll add later. We'll be glad to help you or your builder with telephone planning for your new home, or for extension phones in your present one. Just give the business office a call: there's no obligation, of course. Pacific Telephone—Northwest
