I find myself "living and breathing" fairs these days. The Morrow County Fair and Rodeo in Heppner is scheduled for August 23-28; the North Morrow Fair in Boardman is September 1-3; and the Oregon State Fair in Salem, September 2-10.

I'd like to tell you about the 4-H home economics events lined up for the Heppner fair.

We begin on Monday, August 22, when 4-H leaders meet at the fairgrounds for a "work day" to clean the pavilion and arrange the tables and show cases for display. People working that

day can bring a sack lunch. Coffee and punch will be furnished.

Bright and early Tuesday at 8 a. m. August 23, the 4-H superintendents will begin taking in the entries in 4-H foods, clothing, and knitting. Exhibits can be entered between 8:00 and 11:00 A. M.

The 4-H milk bar will be in business on Tuesday, Wednesday and Thursday for lunch time snacks of sandwiches, milk and soft drinks.

4-H home economics judging contests are scheduled for Tuesday afternoon. Junior members from 9 to 13 years of age will test their skills in judging in clothing or foods at 1:00 p. m. Senior club members, 14 years or older as of January 1, 1960, will meet at 3:00 for the contest.

Wednesday, August 24 is a big day for the 4-H clothing girls. At 9:00 A. M. they will model their dresses before the judges for style revue. That evening at 8 P. M. there will be a public style revue at the fair pavilion so everyone can see the fine work these girls have done.

The 4-H wool sewing contests, bread baking contests, and cake baking contests will be run-off on Wednesday afternoon, starting at 1:00 P. M.

Thursday is 4-H demonstrat-

## Monument News

By MARTHA MATTESON

Well for a good start for the month was another big fire, which started on Wall creek near Johnny Cake mountain August 1.

Maynard Hamilton spent Tuesday and Wednesday working at Long Creek.

Mary Lippert drove her oldest son David to Heppner Monday for Medical aid.

Monday—and we expect this one to be a big one! Application blanks have been sent out. As soon as we know who all will take part, we'll set up the schedule. Demonstrations will begin at 9:00 A. M. and run throughout the day. We are holding Friday for demonstrations too, if we find it necessary. Don't forget the 4-H Dinner for the public Thursday. We urge you to plan to eat your noon meal at the fair pavilion. Proceeds will go to the 4-H leaders council to promote our 4-H program.

Exhibits will be up until 5:00 p. m. on Friday for public viewing. We have close to 100 girls enrolled in 4-H home economics. This should mean a lot of fine exhibits. It should be quite a fair!

Jack Harris was in from Dayton, Wash for the weekend to visit the family.

Mrs S E Lewis left with her daughter and son and their families to visit a month or more at Richmond, California.

Archie Cox went to Pendleton Friday evening to meet the 11:30 train. His wife and children were coming home after spending two months in the East with her father and relatives.

Mr and Mrs L J Matteson and Miss Debbie Fox of Alturas, Calif came up Thursday evening to spend the weekend with their relatives. They returned to their homes Sunday evening.

Wednesday afternoon, August 3 Mrs Isabelle Neal, Mrs Cora Stubblefield, Mrs Rita Copper, Margaret Holmes and Mrs Darlene Boyer were hostesses at a shower in the grange hall, for Mr and Mrs Bill Settle, who had the misfortune to burn out two weeks ago. They received many gifts besides cash.

Mr and Mrs Frank Williams drove to Bend Saturday to meet their daughter Mrs Ross McDonald and three daughters from San Jose, Calif, who will visit for two or three weeks and attend the wedding of her brother Charlie on Sunday.

Mr and Mrs Dick Martin and two children were luncheon guests Sunday at the Harry Scott home.

Mr and Mrs Lilburn Hunt of Long Creek spent the weekend visiting relatives and friends.

Mrs Jack Harris went to Dayton, Wash Sunday afternoon to spend a few days with her husband.

Mr and Mrs Verne McCarty spent Friday in Heppner. She visited her sister and family, the Clayton Sweets.

Johnny Stubblefield of Eugene brought his two sons up last week to visit their grandmother, Ellen Stubblefield and other relatives.

Morning

Glory Control

Program

in 1960

● An effective morning glory control program provides field-scale elimination of the weed, eradication of patches to prevent infestation or reinfestation of cropped lands, all at reasonable cost. No program of morning glory control has proved more efficient—measured either by results or cost—than the Amchem Morning Glory Control Program.

HERE'S HOW IT WORKS

### STEP ONE

Spray field-scale morning glory infestations with WEEDONE 638, a special 2,4-D formulation for morning glory control. First application will provide measurable reduction of the weed. Complete kill will result from repeated spraying. The number and frequency of treatments necessary will vary with the heaviness of the infestation. Because WEEDONE 638 is systemic in action, it leaves no harmful soil residues. Its low volatility means no vapor damage to nearby susceptible crops. Its low cost makes repeated field-scale application economically practical.

### STEP TWO

For existent patch infestations of morning glory along fence rows, in drainage ditches and on other non-cropped land areas, use BENZAC, the double action morning glory killer that kills both through leaf and root absorption. BENZAC remains in the soil to kill morning glory seedlings. The most effective morning glory killer ever developed, BENZAC is a liquid formula, mixes readily with water for ease in use and handling.

This program may be varied to fit the infestation. If fields are widely and heavily infested follow both steps thoroughly. If cropped lands are free of morning glory but spots of morning glory in surrounding or nearby areas threaten cultivated fields, use only Step Two.

Start your control program now and end your morning glory problems for good with WEEDONE 638 and BENZAC!
