You Live Better...Electrically!

HOW MANY OF THESE APPLIANCES  
WORK FOR YOU IN YOUR HOME?

"With three small children, I keep electricity working for me constantly. Washing and drying clothes, keeping milk and formula fresh, cleaning house... these are just a few of the jobs. We have a great many appliances and I'm delighted that all this help costs us only 55¢ a day."

Like Mrs. Baxter, thousands of PP&L customers are using lots of electricity these days. In fact, the average homemaker in Pacific Powerland is using twice as much electricity as the national average!

Visit your appliance dealer. See all the modern electric appliances that are ready to serve you and your family. Make full use of PP&L electric service—today's biggest value.

## Wheat Needs NITROGEN ...and Phillips 66 AGRICULTURAL AMMONIA contains 82% nitrogen!

Apply Phillips 66 Agricultural Ammonia after wheat harvest or before planting. When you apply nitrogen in the fall, it helps decompose the stubble more quickly and increases the soil's population of beneficial bacteria.

Nitrogen on fall-seeded grains means bonus grazing this fall. The faster, lush green growth stimulated by the nitrogen gives greater carrying capacity this fall and again next spring. Nitrogen enables the sturdier plants to make better use of available subsoil moisture.

So, for more profit per acre from your wheat, see us about Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.

**DON'T GAMBLE  
WITH  
BUSHELS!**

Gambling with your fertilizer is gambling with bushels! Soil test before you fertilize this year! Soil tests are essential for maximum net returns from your fertilizer investment. With a soil test, you know what your crops need for maximum production.

Don't gamble with your fertilizer dollar. See us TODAY for accurate soil testing and fertilizer recommendations.
