

School Guidance Session Planned At Boardman

By MARY LEE MARLOW

A guidance session covering preparation for college or other training beyond the high school level will be held for the students of Riverside high school, Oct. 7 at 9 a. m. Principal Jack Flug announced that a visiting team from the state system of higher education has been invited to conduct the meeting.

Representatives from the state schools will explain their respective academic offerings and point up each institution's specific requirements. Opportunity for

questions by students is given to provide individual guidance. The importance of education beyond high school and the urgency of adequate preparation early in the high school years will be explained. A description of what "adequate preparation" entails, career opportunities, costs, scholarships, and mechanics of school application and entrance will be stressed.

These informative sessions are conducted annually in the high school as part of the regular guidance program. They represent a combined effort by the state system of higher education and the high school to better prepare high school students for their future careers. The program presents complete information on the educational opportunities provided at public expense within the state.

Class officers have been elected at Riverside high school as follows: Seniors—president, Jim Miller; vice-president, Linda Warner; secretary-treasurer, Carolyn Baker; student body representative, Rodney Flug; class

advisers, Robert Strutz and Jack Flug. '61 CHEVY TRUCKS

WITH WORK-PROVED

INDEPENDENT FRONT SUSPENSION!

Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more... the latest editions of the haulers that scrapped the I-beam axle and proved the important advantages of independent front suspension!

You'll find new models for '61—long-wheelbase 4-wheel drive units—and thoughtful refinements throughout the line. But the big news for '61 is nailed-down proof (based on owner reports) that Chevy's torsion-spring design is the best thing that's happened to trucks in decades!

With Chevy's independent front suspension and Sturdi-Bilt design, you cruise over trails where other trucks creep. You feel the difference in less wheel fight and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of more work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all of them.

Check the latest specs with your Chevrolet dealer: capacity, power teams, options. Then, by all means, drive a '61. Once around the block and you'll never be satisfied with a front axle truck again!

WORTH MORE BECAUSE THEY WORK MORE!
