Versatility and comfort are highlighted in Ford's 1961 trucks, with the greatest changes and most complete line ever presented. The light duty F-100 Styleside pickup (top) has a new type integral body and cab—with no separation between cab and box—for greater rigidity and longer life. The box is nine cubic feet larger and features a new non-rattling handle type tailgate latch. The F-100 is powered by Ford's "certified economy" 135-horsepower six or the 160-horsepower V-8. The heavy duty F-700 (bottom) now has Ford's 302 cubic inch Heavy Duty V-8 engine as standard equipment and longer wheelbases up to 212 inches. Medium trucks in the F-C-B-600 series have a husky new optional 152-horsepower, 262-cubic inch six cylinder power plant.

Beautifully proportioned to the
CLASSIC FORD LOOK

An honor to be proud of, this is the medal presented by the international fashion authority, Centro per L'Alta Moda Italiana, to the 1961 Ford for functional expression of classic beauty.

A magnificent view... the '61 Ford Galaxie Club Victoria... the Villa d'Este near Rome.

BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

You are looking at the trend-setting car of our times, the '61 Ford... a car whose clean and classic profile is unmatched by any other in the world. Just one glance at the Big Circle taillights and sculptured rear deck, one look at the crisp, fresh front-end design and you'll know the '61 Ford is the classic style of the Nineteen Sixties.

Here is a Ford that is not only new in looks and ride and comfort, but new in its entire concept. The '61 Ford is actually built to take care of itself! It lubricates its chassis... cleans its own oil... adjusts its own brakes... protects its own body.

Indeed, here is a car that will save you valuable time and money by doing away with many steps for service.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF... THE FIRST 1961 CAR DEALER-WARRANTED FOR 12,000 MILES OR ONE FULL YEAR

Lubricates Itself. You'll normally go 30,000 miles without a chassis lubrication.

Cleans Its Own Oil. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Guards Its Own Muffler. Ford mufflers are double-wrapped and aluminized—normally will last three times as long as ordinary mufflers.

Adjusts Its Own Brakes. New Truck Size brakes adjust themselves automatically.

Protects Its Own Body. All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing body panels beneath the doors.

Takes Care of Its Own Finish. New Diamond Lustre Finish never needs wax.

Warranty. The '61 Fords are built to meet three principal goals: finest quality, greatest durability, most reliable operation. Expressing their complete confidence that this has been accomplished, Ford Dealers led the industry in extending their warranty on '61 Fords to 12,000 miles or one full year, whichever comes first. See this warranty at your Ford Dealer's now.
