NOW FOR '61... 2 TOTALLY DIFFERENT TYPES OF CHEVY TRUCKS!

1. REAR-ENGINE CORVAIR 95's—THE TRUCKS THAT BEGAN WITH 4 WHEELS AND A FRESH IDEA!

Here are high-capacity haulers that offer the most accessible load space you ever saw. Think of up to 1,900 pounds of whatever you haul riding on a highly maneuverable 95-inch wheelbase. This design's a beauty. Features 4-wheel independent suspension, integral body-frame build, thrifty air-cooled rear engine—all kinds of fresh new ideas about truck efficiency and economy.

2. TORSION-SPRING CHEVROLETS—WORTH MORE BECAUSE THEY WORK MORE!

You actually feel the advantages of independent front suspension in the almost total absence of I-beam shimmy and wheel fight. The driver rides easy, the load's better protected, tires take less abuse, the whole truck is subjected to far less damaging road shock and vibration. Efficiency goes up. Profits follow. Look over the whole line—both types of Chevy trucks.

You've never seen a heavyweight handle so easily!

HAWAII...

Fuels for America's thriving age of action

IN HAWAII... Starting next week, a new \$65 million oil refinery will begin adding fuel to America's economy in today's age of action.

For our newest state, the \$2 million annual payroll, which will be required to operate the plant, will mean new jobs and business opportunities. And the refinery itself will add strength to the nation's strategic position in the Pacific.

This is one more example of progress in America...one more way Standard adds new vigor, new dimensions to our economic life.
