Hints**

**HOW TO
MAKE YOUR
HEATING
DOLLAR
GO FARTHER!**

- Be sure your doors and windows are weather-stripped and your house is insulated. You'll be pleased with the savings you can make on your heating bill.
 - Save heat by keeping the thermostat at a comfortable setting. It costs considerably more to increase the temperature of your home from 70 degrees to 80 degrees than it does to increase it from 60 to 70 degrees. You can also save by setting the thermostat lower at night.
 - When fireplace is not in use, close the damper. You'd be surprised how much heat can escape through an open flue.
- Reddy Kilowatt hopes these hints will help save you heating dollars. And remember, Reddy's always at your service for home comfort and convenience. Live better electrically.

**Heppner JV's
Beat Grant Twice**

By NEAL PENLAND

Coach Bob Cantonwine's Junior Varsity hit a perfect weekend of play as they dumped the Grant JV's twice. Friday night Heppner took the decision 42 to 37 and Saturday night won by six points, 38 to 32.

Heppner led through the entire game Friday night and got into trouble only once in the second period.

Heppner was led by Shan Applegate who tallied 18 points, and Lefty Gardner was close behind with 13. Ed Gaare led the scorers with 11.

Saturday night Heppner had a rougher time of it as the Junior Prospectors were out to win. In the first half Heppner was behind all the time and at half time was trailing by two points, 17 to 15.

In the second half Heppner started their victory rally and came from behind to pull ahead early in the third period. After that Heppner never was behind.

Bill Cox led the Heppner team with nine points and Kit George tallied with 6.

**Only One State
Veteran's Loan Made
in County in 1960**

Only one state veteran's loan was made to a resident in Morrow county during 1960, according to information released by State Department of Veterans' Affairs. This was in the amount of \$8,500 and was the lowest amount in any county except Gilliam which had none. Other counties with one loan only were Sherman, \$10,450, and Wheeler, \$26,000.

Anticipated loans by the department in 1961 for Morrow county are \$102,000. This increase is due to passage of the war veterans' bonding and loan amendment in the recent general election which assures ample funds in 1961 to meet the continuing high demand. Many county veterans not eligible previously are now eligible to apply for the loans and are expected to do so in increasing numbers.

**Heppner Loses
Two Games
To Grant Union**

By NEAL PENLAND

Heppner High suffered their fourth and fifth straight defeats at the hands of the Grant Union Prospectors last weekend.

Friday night the Mustangs got wallowed by 15 points—63 to 48. Saturday night Heppner led all the way until the final 30 seconds of the game when Andy Conforth sank a free throw that sewed the game up for the Prospectors 43 to 41.

Both nights Heppner was led by the sharp shooting of Tom Green who tallied a total of 39 points over both nights.

Friday night Heppner could not get anything in their favor as they managed only to get five points as the Prospectors got 11.

In the second stanza Heppner came to life a little bit, but was still unable to get anything going. With the help of Green and Bruce Moyer, Heppner got 10 points. Grant got 14.

The third period saw the Grant team go to town again as they tallied 21 points with Heppner only six points back, but the Prospectors were extending their lead.

In the final period Heppner kept improving but it was too late.

Williams led the Prospectors with 17 points and Green of Heppner led all scorers with 24.

Saturday night Heppner was not getting any of the breaks, but managed to lead most of the game until the last 30 seconds when Jim Lenz went to the charity line with two shots to tie the game up. Heppner brought the ball down court and missed the shot with Drew clearing the board. Conforth brought the ball back up court and got fouled about mid-court. He went to the line with a one and one situation getting the first one and missing the second. Green got the rebound and Gribble brought the ball down court on a fast break with less than 10 seconds left in the game on a desperation shot that was blocked as the game ended. A foul right at the end sent Drew to the line after the game with a one and one. He made the first but missed the second.

The Mustangs led all the way and had an 11-point margin at half time with the score 26 to 15.

In the third stanza Heppner hit a dry spell which was the turning point of the game as they only got 5 points as the Prospectors made 15.

Heppner has this weekend off

but will tangle with the Sherman County Huskies on February 3 and 4. Friday night, Feb. 3 Heppner will play at Moro and Saturday night the game will be on the Heppner maples.

**New March of Dimes Enlists Millions
In Battle to Prevent Crippling Diseases**

Beginning Jan. 2 and throughout the month, millions of Americans will enlist in the annual offensive to prevent crippling diseases by joining the 1961 New March of Dimes.

In thousands of communities—crossroads, hamlets, towns, great cities—special ceremonies will mark the start of The National Foundation's campaign for dimes and dollars to combat birth defects, arthritis and polio; to pursue research into these and allied medical problems, and to train health workers.

Climaxing the 1961 New March of Dimes will be the Mothers' March, held on the evening of Tuesday, Jan. 31 in most areas, during which more than a million women and other volunteers will make home-to-home calls asking support to help prevent crippling diseases. Participants in the Mothers' March will wear a lapel identification badge and they will leave in every home an educational pamphlet of "Do's and Don'ts" relating to birth defects and expectant mothers, and another dealing with warning signs and symptoms of arthritis.

The goal of the 1961 New March of Dimes, to cover needed expenditures in research, patient aid and professional education, is \$45 millions. As always, a heavy financial burden on The National Foundation and its 3,100 chapters is the cost of old polio cases. (In 1960, patient-aid outlays to some 40,000 victims totaled approximately \$13,250,000.)

Most communities in January will stage a "kickoff" ceremony in which local dignitaries and other personalities will participate. Chief purpose of these events will be to call attention to the magnitude of the expanded program of The National Foundation and to emphasize that one of every 18 infants in the U.S. is born with a significant birth defect; that fully 11 million in the nation are afflicted with some form of rheumatism including arthritis; and that the staggering costs of polio will continue in 1961.

Joan Perry of Perth Amboy, N. J., national chairman of The National Foundation's Teen Age Program (TAP), is up to her pretty chin in New March of Dimes balloons, to be sold throughout January.

Members of TAP (Teen Age Program) and other young people across the country will be active in their local areas in January in organizing colorful special events. Among these will be coffee parties, airfests, sales of March of Dimes rainbow crutches and balloons and bowling and other sports events. They will also help address the 38 million New March of Dimes mailers to be sent to the nation's homes. In addition, they will assist adults in making preparations for fashion shows, auctions, telethons and other New March of Dimes benefits. Posters and other campaign materials to be seen across the face of the land will bear the appeal, "Please Say Yes to the New March of Dimes."
