The annual Congregational meeting of the Boardman Community Church was held Sunday following morning services, with Kenneth Wooten as moderator. Yearly reports were read, and the following elections were held:

### ROCK HOUNDS CORNER

By BETTY WAGNER

Well, the fourth Saturday night of January, 1961, found the rock hounds and their guests gathered together again to discuss their favorite topic — rocks! A letter from Doc and Mrs. Babb told of some interesting rock hunting experiences near Bagdad, Arizona. An announcement was read regarding the opening of a new rock shop and mine at Madras. The description of the material available there sounds very interesting.

George Miller brought seven large wooden frames containing many beautifully arranged arrowheads and Indian knives. The Wagners had two boxes of specimens showing various crystalline aggregates and the six systems of crystals. The lucky winner at the auction sale of some small tumble-polished squares was George Miller. As to what he plans to do with them, remains a question. Several members had suggestions and we know George has some ideas of his own, so we're looking forward to what he will come up with at the next meeting.

Mrs. Russell Miller was re-elected Sunday School superintendent for the year. Robert Miller was elected as trustee for a three year term. John Summers was elected as elder for a two year term, and Seth Russell as elder for a three year term. Other trustees are Willard Baker and Harold Rash. Leo Potts is the other elder.

Mr. and Mrs. Nathan Thorpe, Mr. and Mrs. W. G. Sechauer, Mrs. Earl Briggs, and Mrs. Cecil Hamilton went to Pomona Grange held at Rhea Creek grange hall Saturday.

Our president, Randall Peterson, had a rock identification game for us. Maybe you would like to try the other game we had. See how many names of rocks you can think of (no fair looking in a book) that begin with any of the letters in the word "corundum," and be sure to put a time limit on yourself—try 20 minutes. We didn't do very well as the highest number listed was 19. Looks like we're still in the novice class.

Greatly enjoyed by everyone was the film "Tim's Choice" by John Deere Company. Mrs. George Miller won the door prize — a small charm containing an embedded mustard seed. I cannot stop here or you would miss out on a very unique part of the evening. Imagine eating coconut "snow" and rock crystals of pure sugar from the sides and base of "The Big Rock Candy Mountains — where the lemonade springs and the blue birds sing."

This was the theme of the beautifully decorated cake made in the shape of a snow-capped mountain with a blue "spring" tumbling down the side, large rock crystals of sugar, a pair of deer, the sun coming over the side of the mountain, and even a small replica of a rock hound with his pick in hand. Our thanks to the Harold Evanses for the delightful refreshments and to the artist of this unusual cake, Lynn Hagewood. We certainly had a wonderful time with the fruit of Lynn's talents.

### RIFLE PROJECT GETS GOING

"They're off with a bang," this is the conclusion that one might have drawn from attending the first 4-H Rifle Club meeting held recently in the conference room of the Gilliam & Blase Hardware building. Thirteen young boys and their parents were on hand for the organizational meeting of the first 4-H Rifle Club in the Heppner area. The club is being led by Vic Kreimeyer and Ray Williamson according to Joe Hay, County Extension Agent.

The organization of this club marks the first of its kind in the Heppner area. The club is designed to teach boys how to handle and shoot a rifle safely. Boys and girls taking this project must be eleven years of age by January 1, 1961.

### Reddy Kilowatt's Helpful Hints

### HOW TO MAKE YOUR HOUSEHOLD DOLLAR GO FARTHER!

• Heating a house without weather stripping or insulation is like trying to carry water in a leaky bucket. Weather stripping and insulation keep heat inside where it does you some good.

• Save heat by pulling down window shades or drawing drapes at night because heat passes easily through window glass.

• Plan your clothes drying so that you can do a full load each time in your electric dryer.

• Clean the lint from your dryer often. Lint holds water and makes clothes harder to dry.

These are just a few of the ways you get your biggest value from dependable PP&L electric service. Use it often, use it efficiently. Live better electrically!
