Letter From Rep. Weatherford

Dear Folks at Home:
I am very sorry you have not heard from me through the press before as it has been some weeks since the session started, but I really profess to having been terribly busy with hearings, research work on things that might be of good interest to us in our district, with long-dis-

Dear Editor:

The 1961 March of Dimes is now completed. Once again the American people have pooled their dimes and dollars through a national voluntary health agency to attack some of their mutual health problems.

A quick check of tear sheets and clips indicates clearly that the weekly press of the nation has been in the forefront of the American people's fight to prevent crippling disease—birth defects, arthritis and polio. In fact,

the tear sheets show that the weekly press support of these aims has been just about the best in the 23-year history of the March of Dimes.

This is my personal note of appreciation to you for your splendid services in the January campaign. This is to say "thank you" on behalf of the literally millions of people who will benefit, directly or indirectly, from the funds contributed to the March of Dimes.

Sincerely,
George P. Voss
Vice President for Public Relations

"I CAN'T ALWAYS GET TO TOWN"

Living out of town, and working every day, it's not easy for me to get to town with my checks . . . and I don't like to leave them laying around the house. So I use Salem Federal Savings' handy 'SAVE BY MAIL' plan. They pay the postage both ways and they also pay the highest rates in town on regular savings accounts. But the biggest reason I save with Salem Federal Savings is, ever since I started my account they have gone out of their way to give me personal attention and friendly service. I notice a lot of my neighbors save there too.

If you haven't started an account there yet, just fill in the handy SAVE BY MAIL form below and send it in with your check . . . You can open an account by mail, just that easy.

ance calls, and with interviews, that I have had little time for any personal correspondence. I have been particularly pleased to have so many people from our district call at my desk, as well as friends, and old-timers, from all four counties.

The Boardman Industrial area, the reapportionment problem, and the reorganization of the State government, all are demanding a great deal of my time, and especially the Boardman problem at the moment, as you can perhaps readily understand. Yesterday, for instance, in addition to our regular session in the House, and my own committee meetings, I had a meeting with a group of Morrow county people with the Governor, and with the Attorney General, and there have been several such conferences among people of my district with other officials. I have been exceedingly pleased and deeply gratified for the ready responses you have given me as a result of my inquiries for information and material that I needed, all of which have been of great help to me in my work here.

We are constantly having public hearings on all four of my committees and, of course, I have devoted my time to other hearings such as public welfare, reorganization, and reapportionment, so it seems I am either in meetings or hearings, and I must say the public interest has been extremely high in all of these because the hearings are jammed to capacity, and the testimony runs into volumes.

I have had reports that the weather is exceptional for this time of year, and that you are having an adequate supply of water which must be most gratifying to everyone after the dry fall.

I am in hopes that I will get to see many more of you before the end of the session and again, urge you to write me about any problems you may have and I will do my utmost to solve as many of them as I possibly can.

With my warmest regards to all,

Frank M. Weatherford

New '61 Chevy with Jet-smooth ride!

Impala 4-Door Sedan—Jet-smooth traveler that rivals the luxury cars in everything but price

The '61 Chevy loves to go because it goes so well. Purrs along pavements like a happy tabby. Takes rough roads in stride and all roads in style.

Just why does a Jet-smooth Chevy treat riders as royally as the high-priced luxury cars? It all came about through a delightful blend of Full Coil suspension, precision-balanced wheels, unique chassis cushioning, and a superb Body by Fisher insulated to hush away road sounds. All this adds

up to less sway, less jounce, less dip, less dive, less tilt, less noise, less . . . well you name it.

Now combine this Jet-smooth ride with conveniences to pamper you and roominess to relax in. Add a full measure of quiet good looks. Voila, you've got Chevy's formula.

And the proof is in the riding. When you sample a Jet-smooth Chevy at your Chevrolet dealer's we think you'll find it just to your taste.
