

Rep. Weatherford Comments On Boeing Contract

"Legislative approval of the Boeing deal for the Boardman Space Age Industrial Park of 100,000 acres will be a good thing for Morrow county," Representative Frank M. Weatherford said Monday.

"Both houses of the Legislature have now approved two bills—one to enable the state to sign the Boeing lease and the other to provide a \$900,000 appropriation—and Governor Hatfield has now signed them.

Of the \$900,000 appropriation, \$400,000 would be spent to move the bombing range south into Lake county by an exchange of lands. Another \$400,000 would be given to the Navy to compensate for the difference in values between the two sites, and \$100,000 would be spent for appraisals, engineering studies and the like.

Weatherford pointed out that these figures are approximate since appraisals can't be made until next summer. He stated that it is hoped the lease might be signed by next December.

Representative Weatherford said that the action of the Legislature, taken after consultation with Boeing officials and local people, will assure slow and orderly development of the area. "It is expected that Boeing will use the industrial park for development of the Dynosaur and Bomarc missiles, and that initially crews of 125 to 200 men will be continuously employed, commuting to the launching pads from Umatilla and Boardman. Ultimately Boeing may employ as many as 2,000 persons at the Boardman project," he added.

Closed Fire Season Started April 1; Permit Required

SALEM, OREGON (Special)—The 1961 closed fire season got under way on April 1 and on that date the various forest laws covering precautionary measures within the forest areas and also the burning permit required be-

Arrangements with Boeing will permit the company to sublease part of the area to auxiliary manufacturers of defense materials or other defense work under federal contracts, Weatherford said.

"Lease of the Boardman space age industrial park to Boeing should stimulate the economy of Morrow and adjoining counties. This area has unique industrial and agricultural advantages. The fertility of the soil, if water is brought to it, can hardly be equalled in the state of Oregon," the 22nd Congressional District Representative continued. "There are also underground water supplies, whose quality is unknown, at about 125 feet.

"The area has transcontinental railway, highway and air facilities, and water navigation. It has a high, dry climate and is smog free—all favorable for industrial development.

"The site of the negotiations for the coming space age area in Oregon was once a mecca for wild horses, known as a horse heaven, and sixty years ago, in 1901, men who helped make the history in this area, participated in a wild-horse round-up that gathered up most of the roaming horses. That is another story that will soon be told," Weatherford promised. "Now, this area can look forward to entering the space age and all that it means to economic prosperity," Weatherford said.

came effective, according to a statement issued by Assistant State Forester James H. Walker.

Burning permits will be necessary for any debris burning or slash disposal operations on or within one-eighth of one mile of forest land within the boundaries of fire protection district. He indicated that the required permits can be secured from the nearest forest protection district office or field office of the U. S. forest service.

All logging operations will be required to provide fire tools suitable for fighting forest fires, equip gasoline-powered internal combustion engines with spark arresters and carry out other protective measures as required by law or regulation.

Walker said that the regulation covering spark arrester use on internal combustion engines had been rescinded by action of the State Board of Forestry. As a result spark arresters will not be required on diesel equipment. The protection committee of the board, at its March 30 meeting approved formulation of a regulation covering spark arresters for gas-powered equipment and directed that this regulation be submitted to industry for study, prior to the board's June meeting, when the matter will come up for final action.

The regulation requiring cessation of operation at 30 percent humidity will not be put into effect until so ordered by the State Forester," Walker stated. "The date of the order will be determined upon the basis of the burning index and not necessarily when the relative humidity drops to 30 percent," the forester continued, pointing out that oftentimes during the early part of the fire season, humidities can be low while the fire hazard will not justify shut-downs because of high moisture content in forest fuels.

NOTICE OF SCHOOL MEETING

Notice is hereby given to the legal voters of Morrow County school district No. R-1 of Morrow County, State of Oregon, that a SCHOOL MEETING of the said district will be held at Courthouse, Heppner on the 28th day of April, 1961, at 8:00 o'clock p. m., for the purpose of discussing the budget for the fiscal year beginning July 1, 1961, and ending June 30, 1962, hereinafter set forth.

BUDGET-FISCAL YEAR 1961-62

SCHEDULE I							
SUMMARY OF ESTIMATED EXPENDITURES, RECEIPTS AND AVAILABLE CASH BALANCES AND TAX LEVIES							
A.	Estimation of Tax Levy (1)	Total All Funds (2)	General Fund (3)	Bond Interest and Redemption Fund (4)			
				Serial Fund (5)	Levy Fund (6)	School Fund (7)	Teachage Fund (8)
1. a. Total Estimated Expenditures		\$1,153,628	\$875,154	\$43,124	\$190,000	\$44,000	\$1,350
b. Total Reserved for Expenditure In Future Years		6,800				44,000	8,150
c. Total Estimated Expenditures and Reserve DEDUCT:		1,160,428	875,154	43,124	190,000	44,000	8,150
2. Total Estimated Receipts and Available Cash Balances		434,150	192,000	None	190,000	44,000	8,150
3. Amount Necessary to Balance the Budget ADD:		726,278	683,154	43,124	None	None	None
4. Estimated Amount of Taxes That Will Not Be Collected During the Fiscal Year for Which This Budget Is Made, Including Estimated Rebate on Taxes		21,788	20,494	1,294			
5. Total Estimated Tax Levies for Ensuing Fiscal Year		748,066	703,648	44,418			
6. Analysis of Estimated Tax Levies:							
(a) Amount Inside 6% Limitation		194,515	194,515				
(b) Amount Outside 6% Limitation		509,542	509,542				
(c) Not Subject to 6% Limitation		44,418		44,418			
C. INDEBTEDNESS		Approved by Budget Committee		Adopted by District School Board			
1. Amount of bonded indebtedness (include all negotiable interest-bearing warrants issued under ORS 328.205)		\$209,000		Dated April 10, 1961			
4. Total indebtedness (sum of items 1, 2, 3)		\$209,000		Signed: Beverly Gunderson, District Clerk			
				L. E. Dick, Jr., District School Board Chairman			

SCHEDULE II

WHY SHELL NH₃

from

INLAND CHEMICAL SERVICE, INC.?

1. SERVICE - -

Proven, reliable service means less down time for you. We were the first dealer licensed in this area to offer soil testing. This is our sixth year for offering this service.

2. EQUIPMENT - -

Modern equipment gives greater assurance of proper application. Applicators to fit your every need - 36-ft., 42-ft., 45-ft., 52-ft., 62-ft.

3. PRODUCTS - -

A complete line of fertilizers:
 URAN for top-dressing for nitrogen (kill weeds at same time by adding 2,4-D)
 SULPHUR - We have it and can apply it if you need it.
 AQUA - We have it, too.
 DRY FERTILIZERS, weed killers, applicators.

4. PERSONNEL - -

Properly trained personnel; year-around employees, qualified to make repairs in the field, qualified to set a pump properly; large enough to service all your needs, yet interested enough to meet your schedule. This means less down time for you.
