NOTICE

RE: ADA JANE LISTER
 To Whom It May Concern:

We have seen the above patient on June 14 and again on the 21st of the same month regarding the question of her mental competency. A psychometric study has been made also and an electroencephalogram. The latter was interpreted by our Consulting Neurologist from Portland, Doctor Conrad Carter.

All this pertains to the after effects of a car accident she sustained March 25, 1961. In the accident a head-on collision was suffered, the husband driving their car. She suffered lacerations of the scalp, fractured ribs and a fracture of the right forearm. A concussion-contusion, cerebral, apparently also had occurred because she was unconscious, out of contact for 8 days and nights. On responding and being in contact it was found her speech was involved as in a partial anislasia of spoken word type. This improved but her speech remained indistinct and slurring. This improved some to date. She has had no headache, weakness of any part of the body, etc. Mrs. Srednik's psychometric studies fail to reveal any organic brain disease or thinking disorder. The electroencephalogram as reported by Doctor Conrad Carter on June 6, 1961, showed a normal electroencephalogram with only a predisposition to drowsiness.

Patient has a distinct slurring of the speech yet and perhaps speech is reduced in fluency and speed. There is no disturbance of the mood. She is quite happy in her current marital situation wherein she was married one month after the accident.

She has a reasonably accurate knowledge of her assets and liabilities financially speaking. Not being psychotic and not showing any organic defect in her mentation; and being quite happy with her new marital situation; and having a reasonable accurate knowledge of her assets apparently, we have no choice in general but to go along with the psychologist in her findings and encephalographer and his tracings to the effect she is mentally competent, knows the difference between right and wrong and can conduct in a reasonably normal way her business affairs.

Very truly yours,
 Paul S. Wolfe, M. D.
 Staff Psychiatrist,
 Eastern Oregon State Hospital
