

Larger V8 Engines and Diesel Debut in '62 Chevrolet Trucks

Diesel power for the first time, addition of two higher powered V8's, and lower hood lines for better road visibility highlight Chevrolet's 1962 truck line. New to most of the 1962 models are directional signals as standard equipment, single headlamps and longer life mufflers. New optional equipment includes alternating current generators, tinted glass and sliding rear cab window for better ventilation. Proved independent front suspension is retained with improvements.

Vacation Problems Do Not Spoil Fun For Bill Labharts

Arriving the day before your reservations start can cause headaches, but the Disneyland Hotel is up to the situation, says Mrs. Bill (Jackie) Labhart.

She tells the story best in her own words:

"I ordered those reservations two months before our vacation," she explained. "The children had never been to California and we were going to make this a real vacation. We went to Portland, then down to Grants Pass. We saw the Oregon Caves, the Redwoods, swam and golfed a lot and took 10 whole days to get to Los Angeles, but arrived the day before we were supposed to just because I insisted it was time. The desk clerk was very accommodating and found us a motel for one night when our predicament was explained; but I'll never live this down."

Jackie, husband Bill, and Chris, Mark and Laurie spent three days at Disneyland.

"In that time we saw everything there was in the park, and before we left we were going on rides twice to use up our tickets," Jackie said.

They also spent two days touring the San Francisco Bay area, took the bay cruise, and visited in San Diego where they saw the Navy Anniversary Show. Bill, a former Air Force man, was especially impressed with the aeronautics of the Blue Angels flying team and the free fall parachutist. Included in the spectacular events was a mock war with falling bombs and rockets.

The family visited the San Diego zoo, Knott's Berry Farm, and many other sights on their 3200 mile trip.

On the return route they visited briefly with Mr. and Mrs. Dave Barclay in Bakersfield. Dave is a brother of Max Barclay, Lexington. Bill went to school with Mrs. Dave Barclay. Also, they visited with Mr. and Mrs. Bill Bedford, son and daughter-in-law of the Jack Bedfords, Heppner.

At Placerville they saw Mr. and Mrs. Larry Downen. Downen was a teacher here, leaving four years ago. They returned home through Lake Tahoe and Reno. "We had a wonderful three weeks, even if I did ball it up," Jackie admitted.

Party For Freshmen Enjoyed September 11

The first party for freshmen at Heppner high school was held in the school gym at 7:30 to 10 Monday evening, Sept. 11.

Dancing and games were enjoyed by the young people with many novel methods of getting acquainted introduced. Planning the games and "get acquainted" dances were three senior girls, Judy Schmidt, Sandra Harshman and Libby Van Scholack. They employed balloon dances, broom dances, and color match dances as well as games to promote a circulation of the students. Ballroom dancing was also on the program.

Refreshments of punch and cookies were served by the three girls at the end of the evening. Chaperones for the affair were Mrs. Grace Schmidt, and Jim Sutherland, freshman class advisors; and Frank Anderson, father of one of the students.

Grass Seeding Funds Request In Congress

A request for \$1,250,000 in emergency funds to re-seed public range lands in Oregon will be made by the Administration, report Senators Wayne Morse and Maurine Neuberger and Congressman Al Ullman.

Heavy fire losses this year on the range lands prompted the members of the Oregon Congressional delegation to ask Interior Secretary Udall to submit the request for funds to Congress prior to adjournment. The Oregon Cattlemen's association estimates that 15,000 acres of public range land need re-seeding.

No estimate of the number of acres damaged by fire in the Heppner area could be determined, but it is known to be extensive compared to previous years. The Sunflower Flat, Ditch Creek and Thorn Spring blazes the week of July 16 took close to 9000 acres of range and timber land in the Heppner district.
