Over The Tee Cup

By DEE GRIBBLE

Hi! Tee-Type-Tippers— Sunday found the men, interested in finding a tourney champ, out at 9 o'clock. Pairing was done by Eddie Gunderson and Lowell Gribble. Those turning out were "Judge" Carmichael, Van Marter, Sr., Ed Bennett, Ed Schaffitz, Ambrose Chapin, Jim Morene, Harlan McCurdy, Clint McQuarrie, Conley Lanham, Maurice Groves, Eddie and "Grib".

After 18 holes were played and handicaps considered, the proud winners were "Grib" for low gross of 69, and a tie between Maurice and Conley for low net of 54. On a "sudden death" play-off, Conley won on the second hole.

The committee thought this a favorable turnout, since we have the deer and pheasants to compete with. Several of our players had preceded their play with 4 o'clock hunting trips.

A two-ball foresome for the afternoon fell flat, as only three

brave females and five foolish fellows turned out—but we surely had a game!

Tuesday eight gals met as usual at 9:15, with Joyce Ward and Nadine O'Brien furnishing the coffee. Playing were Bebe Munkers and Kay Robinson, who haven't been out for a spell—glad you made it! Others out were Jan Agee, Hazel Mahoney, Marie McQuarrie and me. Golf balls were awarded for most putts to Kay, most strokes on number 7 (the water hole) to Nadine—I heard she had 11 strokes, losing two "liquid center" balls to boot. Marie came through with low gross.

You should have seen Eddie G. playing tourney-type golf Sunday with one eye (the other injured in a fall at home, was swollen shut and bandaged).

Walt and Doreen Jacobs are slated to run our Sunday, the 22nd two-ball foresome. Turn out, golfers, and enjoy these last few gorgeous Sundays—the weather can't hold out forever!

Today we painted some music

It may seem unusual that these youngsters are painting "by ear"... turning music from the classroom radio into colorful pictures. But this is the kind of creativeness the Standard School Broadcast inspires.

Currently, the program's theme is "Music—Passport to the World." Using our listening guide, teachers relate music to geography, history, art, folklore, literature.

This helps children gain insight into the life and culture of the peoples of the world. It leads to better and quicker understanding of both the music and the other studies.

By playing and dramatizing all types of music—from symphony to jazz, Thailand dances to Broadway hits, the program adds a new, delightful dimension to learning.

We started this program 33 years ago, never dreaming our listening family would grow to include 2½ million children in classrooms. Now countless adults, too, have discovered how entertaining and informative the broadcasts are at home.

If you'd like to know why the program has such wide appeal, try tuning in on Thursdays. We think you will enjoy it, too.
