KEEP OREGON GREEN

Reddy Kilowatt's Helpful Hints

HOW TO MAKE YOUR HOME COMFORT DOLLAR GO FARTHER!

● To save on your home heating, be sure that windows and doors are weather-stripped, and that your house is insulated. This keeps heat from leaking out of the house.

● Keep your refrigerator and your freezer defrosted. By keeping the frost thickness less than an eighth of an inch, you can reduce the running time of these two important electric appliances.

● Plan meals to utilize your electric oven for more than one item at a time, thus making it do double or triple duty.

● You will save on hot water if you do your washing only when you have at least one full load of clothes.

These are just a few of the ways you get your biggest value from dependable PP&L electric service. Use it often, use it efficiently. Live better electrically.
