For 1962...an all-new kind of Ford!

the car that's just right for just about everybody
right size... right price...

You've never seen anything like it, because *there's never been anything like it*... until today. On the outside the new Ford Fairlane 500 measures a quick 197 inches from stem to stern. A good foot shorter than the cars from which it borrowed its name, it calls the snuggest parking places home. At the same time, *on the inside* the new Fairlane 500 is every inch as big as some of the biggest Fords ever built.

The new Fairlane 500 is priced way under previous Fairlanes, well under many compacts. But Fairlane economy doesn't stop with a pretty price tag. It runs to amazing gas savings—with the world's first economy V-8 or the nickel-nursing Fairlane Six. Routine service is reduced to a minimum—30,000 miles on many items, only twice a year or 6,000 miles on the rest. And it adjusts its own brakes.

right between Galaxie and Falcon

RIGHT! Big-car room, ride, performance.
RIGHT! Compact-car price, economy, handling.
RIGHT! Only car anywhere near its price with the twice-a-year maintenance schedule first introduced by Galaxie.
RIGHT! Unique economy choice: the world's first economy V-8 or the delightfully thrifty Fairlane Six.

RIGHT! Fine-car upholstery, appointments, luxuries.
RIGHT! The built-in value that pays off in pleasure now—and in profit when it comes time to trade.
RIGHT! Quality and precision craftsmanship you've never before enjoyed in any car anywhere near its low price.
