

Jessie M. Hall Dies in Portland

Jessie M. Hall, 83, former old-time resident of Heppner died at the Mt. Tabor Convalescent Home, Portland, Tuesday. Funeral services were at 1 p. m. today (Thursday) in the Creswick Mortuary, Heppner, with the Rev. Charles Knox, pastor of the First Christian church, officiating. Interment was in the Masonic Cemetery here.

Mrs. Hall lived in Heppner for some 60 years before moving to Portland about four years ago. She was born at Sprague, Wn., daughter of Mr. and Mrs. John Russell.

Survivors include one daughter, Laveta Goulder, Portland; a granddaughter, Rosalie Ranton, Portland, two great granddaughters; a brother, Leonard Russell, Spokane; and a sister, Mary Thrielsen, Republic, Wn.

Out of town guests spending Christmas day with Casha Shaw were her son and his wife, Mr. and Mrs. Gus Shaw, and her grandsons and family, Mr. and Mrs. Lee Shaw and Mr. and Mrs. Carl Shaw, all of Herrington. Her daughter, Mrs. Lottie Budden, and granddaughter, Fay Budden, both of whom reside with her, also enjoyed the family gathering.

Saddle-ettes Meet At H. Erwin Home

The meeting was called to order Dec. 3 by the president, Dick Struckmeier at the home of Harold Erwin. The flag salute and 4-H pledge was led by Tanna Valentine.

We took roll call and found 18 present. Minutes were read and approved. The next meeting will be held at Mr. and Mrs. Bill Barratt's home, January 14.

Everett Struckmeier talked about parliamentary procedure. More on parliamentary procedure will be held next meeting.

We decided to go on an overnight ride sometime. The meeting was adjourned and demonstrations were given by Shirley Erwin and Meridy Webb on the procedure of cleaning riding equipment. Refreshments were served.

Guests present were Mr. and Mrs. Struckmeier, Mr. and Mrs. Erwin, Mrs. Rolice Fullerton, Mrs. Al Petch, Mr. and Mrs. Raymond French, Paul Webb, Mr. and Mrs. Pat O'Brian and Mrs. Jim Valentine.

Shirley Erwin, reporter

Mr. and Mrs. Arnold Raymond and family traveled to Hood River Friday of last week to have Christmas dinner with her mother, Mrs. Ella Bosshardt.

Private Pond Yields 18-inch Kamloops

A person had to look at the calendar to see if trout season were here when N. C. Anderson walked into the Gazette-Times office with a thick-necked 18-inch Kamloops trout Wednesday. But there was nothing illegal about it—the trout was caught by David Anderson, 14-year-old son of Mr. and Mrs. Anderson, in Don Greenup's private pond Tuesday.

Anderson said the fish could not be more than 2½ years old, time of the first planting in the pond when the minnows were only 1½ inches long. There has been no artificial feeding of the fish. In the past three years, some 75,000 to 100,000 trout have been planted in Morrow county ponds, which now number 56. Just a few years ago there were none, he said. Under conditions that now prevail it is possible to raise 1000 to 1200 pounds of fish annually per acre of pond, the county agent said.

The meat of the 18-inch Kamloops was of good color and delicious. However, it is no longer possible to verify facts concerning this catch because the editor's family had it for supper Wednesday, a gift from the Andersons.

Babson Predicts Better Year, No War Through 1962

(Continued from Page 1)

cement manufacturers must give more attention to colors.

29. Expenditures for plant and equipment in 1962 will increase, supplemented by large appropriations for repainting factories and offices in many colors.

30. Newspaper production depends upon the number of newspapers and the amount of advertising sold. I forecast a decline in the amount of newspaper sold during 1962, but advertising receipts may increase through the better use of colors. This may result in the increased use of coated paper to better take color printing—with a 50% increase in advertising rates.

31. Furniture manufacturers are marking up prices so that young couples will buy furniture in the raw and paint themselves.

32. There will be some increases in the color TV sales in 1962. In fact, I think the present TV market is far from being saturated.

33. First-class postage rates will not be increased during 1962. Hence, more money will be spent on direct mail selling. This should help job printers in 1962, as their present margin of profit is very small. Billboard advertising will increase during 1962, due to a new kind of paint.

34. Lumber will do well to hold its own in 1962 and much of it will be sold colored. Wall-to-wall carpeting will become even more popular, reducing the price of the best hardwood floors.

35. Fewer "scatter rugs" will be sold in 1962. Rug dealers must go to brighter colors, even for "orientals."

36. One of the greatest developments during 1962 will be the increased use of color in homes, offices, stores, and factories. This should increase both the demand for and the price of good paint.

37. Exports will probably increase during 1962, but the surplus of trade in favor of the United States is constantly decreasing.

38. President Kennedy is encouraged by the recent elections in New York, New Jersey, and Texas. This Democratic trend will continue during 1962, notwithstanding former President Eisenhower's campaign speeches.

39. President Kennedy will be more favorable to "big business" in 1962 only when he is able to use big business to increase employment. Profit margins will not improve during 1962, although most industries will do better in terms of gross and volume.

40. Bond prices will not change much during 1962, except in the case of "non-taxables." European investors are buying American stocks and bonds, feeling that their money is safer in United States industries and real estate. Even the first mortgage bonds of transcontinental railroads are being bought by Europeans. The manufacturers of West Germany are making huge profits through the use of new machinery and low wages. They are sending their money to the United States to be invested. They seem to prefer suburban real estate, shopping centers, and electric utilities. I hope they are not buying into too many "fly-by-night" new electronic companies.

41. Buying of Mutual Funds will continue to exceed selling in 1962. Considering that brokers make much more profit by selling Mutual Funds than by selling shares of individual stocks—and salesmen selling Mutual Funds—this should help stock prices during 1962. Remember that the Mutual Funds operators must go to the New York Stock Exchange to purchase stock to support these Mutual Funds which salesmen are selling in the field.

42. The so-called "service industries"—including education, beauty parlors, travel, entertainment, and government positions—should prosper in 1962.

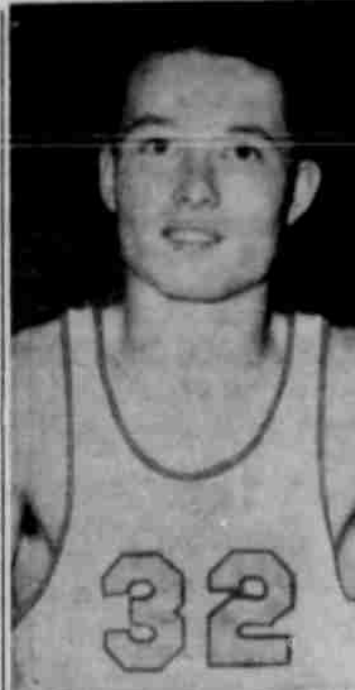

43. Among the fastest growing industries in 1962 will be the plastics and glass industries. These materials will gradually take the place of wood, stone, cement, and even some metals—except as these are colored. Plastics and glass will become more important building materials and perhaps be used much more for automobiles.

44. Some unexpected event or discovery will cause the Dow Jones Industrial Average to sell much higher during the next few years. As an illustration of what one of these unexpected events will be, I mention the polymer developments in chemistry, including "DNA" and "RNA," which may provide the source of life and extend it—yes, perhaps restore it, in special cases.

45. I am bullish on Canada for safe investments during 1962. Canada has a small population of only about 18,000,000, but it is rich in natural resources and has a sound, progressive government. I do not expect a nuclear war to be started by Russia; but if it comes, Canada will be a good place to live and to have your money invested.

46. South and Central America also have great natural resources; but most of their countries are ruled by selfish dictators. I believe most of our southern neighbors will suffer from serious inflation during 1962 and become a great problem for the United States.

47. Although the greatest sufferers in case of World War III, the people I meet in Europe fail to realize this. I forecast that they will look at the situation

BRUCE MOYER, veteran hooper of the Heppner High school basketball team, will be back in action after a holiday lay-off on Friday and Saturday, January 6 and 8, when the Mustangs play Grant Union of John Day here. (G-T Photo)

lone to Play Game at Athena

Victorious in three of four starts, lone's basketball game swings into action again tonight (Thursday) when the Cardinals take on McEwen of Athena there in a non-league game. Jayvees will open the doubleheader at 6:30 to be followed by the varsity game. So far this year, Coach Glenn Biehl's boys have lost only to Wheeler County, and that by one point. Victories have been recorded over Maupin, St. Joseph of Pendleton and Heppner.

After New Year's the Cardinals will go against St. Joseph in Pendleton on Friday night, January 5, and will face McEwen in a return game at lone on Saturday night, January 6.

Condon Woman Hurt In Christmas Mishap

Mrs. Karen Sellards of Condon entered Pioneer Memorial hospital on Christmas day after suffering injuries in an auto accident near Condon.

The car in which she was a passenger rolled over. She suffered a fracture of the fibula of the left leg. After treatment at the hospital she was released Wednesday.

Junior Dance Set

St. Judes circle of the Catholic Altar society will sponsor a dance for all sixth, seventh, and eighth grade students in Heppner and lone on Friday night, December 29, in the Catholic parish hall. It will last from 8:00 until 10:0 p. m.

More Realistically During 1962

48. West Germany is very prosperous; East Germany is in terrible condition. Much unemployment exists in Italy, France, and even Great Britain. I advise against investing money in Europe during 1962.

49. I am uncertain how to advise Africa. But it is very rich in natural resources—including gold, diamonds, and almost every metal—as well as having the greatest undeveloped waterpower in the world. Barclays Bank I am personally acquainted with and recommend. Both Barclays and the Standard Bank are owned in England and have a great many branches; the latter has over 850 branch offices in Africa. Readers who are interested in keeping in touch with Africa may secure free of charge the Standard Bank Monthly Review by writing the Standard Bank of South Africa, 10 Clement Lane, London, EC 4. The banking of Northern Africa is controlled by the French. I would advise against putting money into Northern Africa during 1962.

50. The final result of 1962—whether it will make us a stronger or a softer nation—spiritually, physically, and mentally—depends upon our parents, teachers, preachers, and newspaper publishers. These, and not Russia, hold the future of the United States in their hands.

Mrs. Pratt's Mother Passes In Portland

Funeral services for Mrs. Eva Laurine Showay, mother of Mrs. Gordon Pratt, were held Wednesday afternoon from the Colonial Mortuary, Portland. The Pratt family was called unexpectedly on Thursday to Portland because of the sudden illness of Mrs. Showay, who passed away on Sunday.

Survivors, besides Mrs. Pratt, include the husband, Frank L. brothers, James A., Elmer, Gordon, and Arthur; a sister, Mrs. Pearl Newkirk, and 5 grandchildren.

Share With Hospital

Sixth grade students of Mrs. Harold Erwin prepared and packed gift boxes of pop corn and home-made candy for patients at the State Hospital in Pendleton as a token of holiday cheer and remembrance, before their dismissal for school vacation last week.

The packages were delivered in person by Mrs. Erwin on Sunday.

Installation Night Set

Installation of officers for the Degree of Honor Protective association is planned for Tuesday, January 9. It is most important that both retiring and incoming officers plan now to be present, according to Mrs. Ed Gonty, retiring president.

their six grandchildren open their gifts.

Mrs. Troedson Dies Wednesday

Services for Alda B. Troedson, 81, Heppner, will be held at 2:00 p. m. Saturday at the Methodist church, the Rev. Austin McGhee officiating.

Mrs. Troedson died at Pioneer Memorial hospital Wednesday.

She was born June 25, 1880, at Guys Mill, Pa., the daughter of Sylvester and Lucetta Byham. After graduation from the Edinboro Normal School at Edinboro, Pa., she taught in Pennsylvania, then came to the Troedson school district near Morgan to teach in 1904. There she met and married Alfred Troedson July 4, 1905 at the Troedson home ranch. She and her husband operated the ranch until their retirement in 1945 when they leased the place and moved to Heppner.

Mrs. Troedson had an ancestor who came to North America on the Mayflower. She was a member of the Methodist church and Sons Sewel Rebekah Lodge No. 32. She was active in the Lexington Grange and Morrow county Pomona Grange and had been a delegate to both state and national grange conventions.

She is survived by her husband, Alfred, Heppner; one daughter, Frances Putnam, Lake Arrowhead, Calif.; one sister, Mrs. Jessie Morrison, Guys Mill, Pa.; eight grandchildren and four great grandchildren.

Interment will be in the lone Odd Fellows cemetery.

HOSPITAL NEWS

Charles Dickey, Heppner, dismissed; Melba Dan, Condon; Ima McDaniel, Heppner, dismissed; Alda Troedson, Heppner, deceased; Karen Sellards, Condon, dismissed; Danny Snyder, Condon, dismissed; Elaine Rietmann, lone, dismissed; Edna Struthers, Heppner, dismissed; Floyd Willie City, dismissed; David Ramds, Lexington, dismissed; Tommy Schoolcraft, Fossil; Patricia Van Winkle, Heppner, dismissed; James Van Winkle, Heppner, dismissed; Maudie Shields, Heppner; Julie Zinter, lone; Peggy Jean Kinzer, Fossil, dismissed; Valerie Wood, Fossil; Billie Jo Marler, Fossil; Charles W.
