

Coverage Found, Tow to Operate At Arbuckle Area

After spending a day in Portland and doing some research in insurance, Ken Peck of the Arbuckle Mountain Ski club assures the public that the ski tow at the mountain will be operating again this week-end.

It was shut down last week when it was found that it could not be operated on National Forest land without adequate liability insurance coverage. A cursory investigation by Peck revealed that such "adequate coverage" would cost about \$825 in premiums.

Peck put out a plea for any local help that could be obtained and, with Gary Tullis, took off for Portland. Fortunately, they found an insurance man who was a skiing enthusiast himself, and they were able to obtain insurance that would cover liability on the tow and the ski area.

The club will have to pay the insurance premium, Peck said. They had eyed the possibility of asking local groups to help, and Dr. C. M. Wagner brought up the matter at the Chamber of Commerce Monday. He pointed out that a \$100 membership taken out by the chamber would help promote the recreational activity that is a good drawing card for this area.

President Fred Gimbel said he would turn the matter over to a committee for consideration.

After 5 below zero weather on Sunday, January 21, the temperature soared to nearly 70 degrees higher on January 28. Peck pointed out, and skiers appeared at Arbuckle in shirtsleeves. He said that the snow would hold good through this week-end.

Peck said that chair lifts account for many more accidents than tows. The local club does not have a chair lift.

Umatilla Co-op Hearing Changed

A hearing on an application filed with the state public utility commissioner by Umatilla Electric Co-op, Assn., Hermiston, originally scheduled for January 24, was rescheduled today for 9:30 a. m. on February 15, in the Civic Recreation Center at Hermiston after it was learned that complete statutory notice had not been published in papers having circulation area served by the utility.

Umatilla is applying for an allocation of an exclusively served territory and adjacent unserved territory surrounding but not including the communities of Hermiston, Stanfield and Echo in the north eastern portion of Morrow County and the northwestern portion of Umatilla county.

Under the terms of SB 487, passed by the 1961 Legislature, local notice of all hearings on applications for allocations of territory must be published for two consecutive weeks prior to the date of such hearings in newspapers within the affected area. PUC officials said this had not been done.

Mustangs Travel, Cards Face Pair In Week's Games

Basketball is on the downhill side with only a few weeks of play left, but both Heppner and Ione High schools have busy week-ends ahead.

The Mustangs travel to Madras to take on the league-leading White Buffs in a pair of games, while Coach Glenn Bieh's Cards entertain Riverside on the Ione court Friday night and meet Echo at Echo on Saturday night.

After this week, both Heppner and Ione have just one league game left at home. The Mustangs play Sherman county here Friday night, February 9. They have road trips left to John Day and Moro as well as the trip this week-end to Madras.

Ione finishes its year against Stanfield at home on Friday, February 16.

Ione this week-end will try to hold its grip on top spot in the league and at the same time hopes to avenge its lone loss in conference play. It lost to Riverside in an early game. The game with Echo Saturday night is also a counting contest and Coach Bieh's lads hope to make it two in a row over there.

Coach Bob Cantonwine's five gave Madras a bad scare in games here at the start of the season, leading in one by 18 points before dropping the contest to the Buffs. They have improved a great deal since that time and expect to have a good chance of downing the Madras five in a pair.

Varsity and jayvees will leave the high school at noon Friday in the new Morrow county activity bus.
