Advance Tickets On Sale At Bank

Advance tickets for the Seattle World's Fair are now on sale at the Heppner branch of the First National Bank of Oregon, it was announced recently by branch manager J. H. Bedford.

The fair opens in Seattle on April 21 and will run until October 21.

Both adult and children's "bonus books" are available at the local First National banking office. The adult bonus book contains two gate admissions, four amusement rides, two performing arts events, two fine arts exhibit admissions, an official exposition guidebook, and a souvenir pin.

The advance ticket "bonus books" are being sold by First National at discounts of 35 to 40 per cent. Regular \$10 adult books are \$6.50 and the children's books valued at \$6.50 are selling for \$3.75.

The advance tickets will be on sale at First National Bank branches throughout Oregon until March 15.

Electricity to customers had required the expenditure of \$42,000,000.

Building of new transmission links to bring new power supplies into the system was at a record one-year pace. Important links were added to the company's system in Oregon in the Corvallis and Albany districts in the Willamette valley, south of Pendleton, and in the Coos Bay-Empire-North Bend area, across Coos Bay to a new paper mill established there, between Salem and Albany; and in Washington state, eastward from Walla Walla to bring power from the Snake River into the PP&L system.

Work also was started on a 100-mile-long line which will interconnect the PP&L system in the Willamette valley with the system of the former California-Oregon Power Company, thus integrating the hydroelectric powerhouses of both systems. Other lines started and due to be finished in 1962 include a 230,000-volt line between Medford and Roseburg.

TWO FAIR FEATURES POSE TOGETHER—Two of the highlights of this year's Seattle World's Fair are seen together here: the 600-foot Space Needle looms through the concrete beamway of the Alweg Monorail System. The Space Needle—topped by a 40-foot natural gas torch—has a revolving restaurant and an observation deck on top. View port elevators traveling on the outside of the Needle's central core will give fairgoers a breathtaking thrill. The Monorail—the nation's first high speed, mass transit monorail system—will carry up to 10,000 persons per hour to and from the fairgrounds on two four-car trains, one straddling each of the two beams seen here. The trip to the downtown terminal of the Alweg Monorail in the heart of Seattle's business district is 1.2 miles—and at speeds up to 70 miles per hour, will take about a minute and a half. The Seattle World's Fair opens a six-month run on April 21 of this year. As workers rush to completion such fair features as the Space Needle and the Monorail, all Seattle is getting ready for the rush of tourists expected to attend the fair. Among the busiest places in Seattle these days is the fair headquarters of Expo-Lodging Service, an agency set up to handle accommodations for the fair. People planning to attend the fair should write Expo-Lodging Service, Seattle World's Fair, Seattle 9, Wash., for reservations.

New Children's Books Added To Library

Several new children's books have been added to the shelves of the Heppner City Library, according to Mrs. Blanche Brown, librarian.

The list includes the following: Fabulous, by Benedict; Hackamore, by Lynch; Emily's Runaway Imagination, by Cleary; Winter Journey, by Falk; The Dream of King Aldan, by Wyatt; I want To Be A Space Pilot, by Greene; I want To Be A Librarian, by Greene; A Child's Book of Fishes, by Kay; A Child's Book of Prehistoric Animals, by Frost; A Child's Book of Butterflies, by Godwin; Andy and the Wild Wood Ducks, by Short; Tabby's Kittens, by Konkle; Tizz Takes A Trip, by Blank; Tizz Plays Santa Claus, by Blank; Scrambled Eggs Super, by Seuss, and Flower Box Surprise, by Blane.

CROWNING THE RIDGE of Marquam Hill in Portland is the north campus of the University of Oregon Medical School. From left to right aerial view shows the Library, Medical Science Building, Administration building, Clinical Laboratories, Outpatient Clinic, and in right foreground the Medical School Hospital. The New Research Laboratories building, now under construction, is seen in center background. On right background is Multnomah Hospital. The south campus, not shown in picture, includes the Tuberculosis Hospital, Crippled Children's Division, Portland Speech and Hearing Center (under construction), University of Oregon Dental School, and Gaines Nurses' Dormitory.

Electricity Use Up During 1961

Most local residents used more electricity during 1961 than they did a year ago to help perform household chores, light their houses and keep their families comfortable, according to Pacific Power and Light Company.

"The households served by the company used an average of 8,735 kilowatt hours of electricity in 1961, a new record level of use, but many families use from 10,000 to 20,000 kilowatt hours a year in their 'electric living' homes," according to PP&L's district manager, Eldon Drennan.

"Our customers are making greater use of electric automatic clothes washers and driers, electric dishwashers and other electric household appliances that make living easier and more comfortable for all members of the family," he added.

In a review of 1961 highlights, PP&L President D. R. McClung said total sales to all customers exceeded seven billion kilowatt hours for the first time.

The construction of power generation, transmission and distribution facilities to help provide these larger amounts of

we LIKE to demonstrate!

You bet! We like to have you drive a new '62 Ford Galaxie, Fairlane or Falcon! We're proud—because they are the finest

performers on the road today. So don't be bashful. Stop in any day it's convenient, and ask us for the keys!

1962 GALAXIE/500 TOWN SEDAN

we LIKE to talk deals!

We're always ready to sit down and talk turkey with you on your trades. We start off with the greatest values (and usually

the lowest prices) right across the board... In new cars... Ford Trucks... and all makes and models of used cars, too!

...and we LIKE to keep you happy after you buy!

We're always glad to see you when you come in for service, accessories, or just to say hello! We're here to take care of you and your car... to help make every mile you drive a pleasure. We want to

keep you as an enthusiastic customer for life—and have you recommend us to your friends. P.S. With Ford's new twice-a-year (or 6,000-mile) maintenance, we won't see you often enough to suit us!

...that's what's so different about dealing with your local **FORD DEALER!**
