This is a **Ford Fairlane door latch.**
 There is no other door latch like it. It combines the strength of a bear hug with the precision of a surgeon's fingers. Its action is supple, its sound is solid. Like the 12-month or 12,000-mile warranty* first introduced by Ford, it is undeniable proof of the superb quality built into every Ford car. It may surprise you to find quality so high in a car that's priced as low as the Fairlane (actually under many compacts), but there are many surprises in this newest of automobiles. The fact is, you won't find any new car that gives you Fairlane's big-car room, choice of V-8 zoom and fine-car quality anywhere near Fairlane's surprisingly low price. There's no other new car that combines so beautifully all you ever wanted from a big car—with handling and economy compacts could envy. As a matter of fact, *there's never been a buy like Fairlane because there's never been a car like Fairlane*—and that's why this all-new car from Ford is now outselling every other "new-size" car. Which is as it should be. After all, how can you beat an unbeatable combination?

*Ford Motor Company warrants to its dealers, and its dealers in turn, warrant to their customers as follows: That for 12 months or for 12,000 miles, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty. Appropriate adjustments will continue to be made by the tire companies. Owners will remain responsible for normal maintenance service and routine replacement of maintenance items such as filters, spark plugs, and ignition points.
