Weatherford Proposes Conservation Camps

Rep. Frank Weatherford has announced that he is preparing legislation to set up conservation camps as part of a pilot program for combatting juvenile delinquency. The legislation would authorize application for federal funds under Public Law 87-274. Rep. Weatherford proposes to

establish camps where school dropouts, unemployed youth faced with limited opportunities and youth in deprived family situations would be provided with the opportunity for healthful training and useful employment in observing and developing natural resources.
 Rep. Weatherford said that he will continue to consult with state and federal agencies responsible for conservation and for education so that efforts of all such agencies may be coordinated to meet the problems of pre-delinquent youth.
