# At \$162,000 For Morrow

Morrow county budget for 1962-63, adopted by the budget committee on May 23, calls for a total tax levy of \$162.213, holding within the six per cent limitation.

Total estimated expenditures of all funds are figured at \$314,647 as compared with \$460,811 in the 1961-62 budget. However, not included in the estimates for the coming year is the serial road tax levy that has been de-clared illegal and cannot be levied. Roads thus are shown in the budget for the coming year at \$80,090, exactly the amount of receipts expected from sources other than taxes, while last year's budget had a figure of \$233,200 for roads, including the proceeds from the serial levy.

Unable to turn to the people to set up a road tax base, which, too, was declared illegal on the grounds that it would provide two bases (general fund and two bases (general fund and roads), the county court will set up a special election on a new and acceptable form of serial levy for roads with election coming early in July. If this is approved by the people it will be added to the budget in the form of a supplement. It is expected that the court will ask for a sum of \$115,000 for roads in the serial levy. Previously, the levy was stated in terms of 10-mills which has been ruled illegal. Last year this millage levy provided more this millage levy provided more than was needed because of an increase in the county's assessment ratio with consequently greater valuation.

The tax levy for the 1962-63 budget is placed at approximately \$9000 more than that for 1961-62, \$162,213 as compared with \$153,182, all of which is

## Slight Gain For Heppner

City of Heppner's 1962-63 bud-get, adopted by the budget com-mittee Tuesday night, calls for total expenditures of \$123,356.50. **Five Lost Hunters** 

Five tired and weary mush-

room hunters walked into the mountain cabin of Mr. and Mrs. Earl Blake on east Willow

Creek Thursday afternoon after being lost while scouring the mountains for mushrooms. They had left their camp at

Cutsforth's park, became con-fused and traveled some seven

miles over Black Mountain before coming to the cabin.

Included were two women and a small boy of Irrigon and an elderly couple of Portland.

Mr. and Mrs. Don Bunkers

of Portland were occupying the Blake cabin at the time as

guests of the owners. Bunkers' amateur radio operating ability came into play, and he used his "ham" set that he had with him to call for directions.

He reached Haskell Sharrard,

Heppner TV repairman and also a "ham" operator. By co-incidence, Earl Blake was with

Haskell in the shop when the call was received. They de-cided it better for Bunkers to drive the five to town rather

than attempt to give them di-

rections for return to the park where their camp was located.

Sharrard later took them back

The camping group was grateful for their "rescue," and had praise for the "ham" operators who helped them.
