Enjoy 4-Week Trip, Visit With Relatives

Mr. and Mrs. N. D. Bailey returned the past week-end from a four-week trip in California and Washington visiting other members of the family.

After attending a reunion in Hood River August 12, they accompanied their son and family, Mr. and Mrs. Albert Bailey to their home in San Anselmo, Calif., where they stayed for two weeks. They also visited Mrs. Bailey's brother, W. H. Sherlock in Richmond before coming back to Portland by train.

They were met by their daughter, Mrs. Everett Stout and enjoyed a week's visit at her home in Everett, Wn., before returning home.

Parkers Return After Visiting Relatives

Mr. and Mrs. Frank S. Parker returned last week from a ten-day vacation, a part of which they spent in Portland with their daughter, Mrs. Frances Mitchell and son John and family. The remainder of their time was spent in Hood River at the home of their son, Vawter and family.

On Saturday, September 1, they were guests at the wedding of their granddaughter, Cecelia Parker of Hood River, to Scott H. Goodnight, Jr., of Portland. They were present to help welcome home their grandson, Vawter, Jr., who spent the summer as an American Field Service student in Turkey.

Japanese Visits; Madison, Smith Governor Guests

Gaylord Madison and Jack Smith were guests recently of Governor Hatfield when he entertained Tadashi Saito, vice governor of the prefecture of Hokkaido, Japan. The luncheon, held at the Illahe Country club near Salem, was attended by representatives of the State Board of Forestry, the State Bureau of Marine Fisheries and the Department of Agriculture.

The similarity of the latitude and the climate of Oregon and the Island of Hokkaido, prompted the vice-governor of that prefecture to visit Oregon. Governor Saito was getting first hand information about our methods of increasing pasture for cattle. They now have 20,000 head of dairy cows and they wish to increase this number. They have

only a few beef cattle but they plan to increase the number of these. The vice-governor learned of the breeds predominating in Oregon.

The soil is very acid. Like western Oregon, they must use large amounts of lime. They have used some superphosphate and ammonia sulphate. They are beginning to use anhydrous ammonia.

The island of Hokkaido imports some of their rice but they raise all other grains that they use. The wheat and barley that is imported is used in trade. In their pastures they raise red and white clover and fescue. They need to drain some of their land.

The vice-governor visited Oregon State University because he is interested in planting trees on the hills and mountains in his prefecture. He wished to see mechanical methods of planting trees. In Japan trees are planted by hand and fertilized to get rapid growth. Soft wood trees are grown because they grow more rapidly.
