Here's what the other '63's wish they looked like.

Today—Wide-Track Pontiac '63

Obvious, isn't it, that Pontiac's come up with another beauty this year. Fresh over-and-under headlights, clean profile—but you can see that. There's a wider Wide-Track,

too, and a full line of Tropay V-6's. [That ought to be enough to make those other cars turn green.] And we haven't mentioned such happy touches as self-adjusting

brakes. So what, pray tell, could be keeping you from a new Pontiac of your own? A small suggestion. Don't run down to see one. Gallop! Wide-Track Pontiac
