## IF YOU THINK TAXES ARE TOO HIGH NOW!

For the first time in the history of Oregon, because of the change in representation, the legislature will be dominated by the representatives of the big population centers.

Counties like ours should elect men as representatives who have the experience, capability and desire to promote the progressive legislation we want . . . in education, industrial growth, research, marketing and recreation . . . and to vigorously oppose all bills that are merely raids on state funds for big-city or sectional gain . . . and can result only in a big jump in taxes in rural counties.

GAYLORD MADISON

Gaylord Madison is such a man . . . experienced, capable, progressive . . . owes no political debts or promises to any man or organization . . . and believes we should get full value for our tax dollars.
