Students Collect Food for Families

Thanksgiving was made a little brighter for some families in the county because of the generosity of the people of Heppner and efforts of the Seventh-day Adventist church school students.

On Hallowe'en night the students, nine in number, collected 124 cans of food in the community, divided them into family-size boxes and presented them to Lowell Chally, welfare administrator, for distribution.

Ford ideas so contagious they started a new trend in cars!

If you think today's cars have a lot in common, credit the Ford sketches above. For these ideas sparked a revolution in car design that's reflected wherever you look on the American road.

Ford ideas have a habit of being exciting—practical, too. Consider the innovations found only in our '63s. There is Ford Galaxie's smooth new velvet ride. It cost Ford \$10 million to bring it to you, but costs you not a penny extra to enjoy. There is

Ford's full twice-a-year or 6,000-mile maintenance* schedule that cuts service worry and expense to a minimum. There's a new manual transmission that lets you shift down from second to first without coming to a stop. And for '63, there's the biggest choice of models ever offered—44 in all!

Only Ford offers all these advantages now. Other cars will eventually catch up—but if you can't wait, here's a tip. See your Ford Dealer today!

Here's America's most contagious roofline as seen on the 1963 Ford Galaxie 500/XL

America's liveliest, most care-free cars!
