

MISS SPRING SPORTS at Oregon State University is Miss Michelle Morrison, freshman in education from Ione, as she is pictured on the Parker Stadium turf with implements of baseball, golf, tennis and track. A prejudiced committee of John Eggers, formerly of Pendleton, and Jim Barratt, formerly of Heppner, both with the OSU athletic department, chose Michelle for the title admitting they think eastern Oregon girls are the best! TOTAL PERFORMANCE:

IF YOU KNEW WHAT HE KNOWS...YOU'D BE DRIVING THE 1963 TOTAL PERFORMANCE FORD

Ford is traditionally the nation's Number One police car. The reason: Total Performance!

When it comes to cars the police don't take chances. Put yourself in a State Trooper's shoes. Every day you must patrol hundreds of miles in your cruiser. Mileage and time grind into a man and his machine, but when the bell rings you've got to be ready. Chase. Turn. Corner. Quick stop. You've got to be able to do it all if you're going to do your job.

Listen to a trooper list the reasons why he prefers a Ford and you realize how difficult it is for any car to measure up to his standards. The car must be strong . . . it has to stand up to big mileage. It must be silent . . . when you practically live in a car a rattle can sound like a kettle drum. It must be swift . . . powerful enough to catch any car on the road. It must be sure . . . dependable even in the face of the unexpected. Strong. Silent. Swift. Sure. A four-word outline of total performance. The police demand it. That is why they choose the total performance Ford. Why should you settle for anything less?

Whatever your special demands and needs, the total performance Ford is the car most likely to satisfy you all the way down the line. You can prove this for yourself.

First, look at Ford's astounding record in open competition this year in the grueling Daytona, Riverside and Atlanta 500's, and in the demanding Pure Oil Performance Trials. Only a car with total performance could roll up so many impressive wins.

Second, before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery—if it's built by Ford, it's built for performance . . . total performance.
