High Scoring Games Mark Two Openers

Braves	W	L
Indians	2	0
Giants	1	0
Dodgers	0	1
	0	2

Coming Games—May 23, Indians vs. Braves; May 27, Indians vs. Giants; May 28, Dodgers vs. Indians; May 29, Dodgers vs. Braves; and May 31, Indians vs. Giants.

A parade of the four Kwick Creek Little League teams kicked off the season openers Saturday afternoon. Led by the 7th and 8th grade honor band under the direction of Arnold Melby, the Indians, Dodgers, Braves and Giants Little League teams marched up Main street carrying signs designating their teams before competing in opening games.

The first game of the double-header started at 1:30 on the Little League field with the Braves outslugging the Giants in a high scoring tilt, 19-10. The Braves led off the scoring spree as they had 14 men to bat and run in nine runs on three hits.

Not to be out done, the Giants came right back in the bottom of the first to send up 14 batsmen and get nine runs on four hits. The teams held even until the top of the third when the Braves got the bat going to get six runs on five hits and take the lead, then picked up four more runs in the last three innings. They held the Giants to one run in the sixth. Larry Pettyjohn started on the mound for the Braves with Kent Pratt coming on in the fourth. For the Giants Terry Prock started, with LaVerne Van Marter relieving in the fourth.

In the second game the Indians picked up five runs in the bottom of the first against the Dodgers and were never headed as they held the Dodgers to five runs while scoring nine in the fourth, and two more in the fifth. The Dodgers were held scoreless until the fifth when they pushed across four runs on one hit and picked another run in the sixth on one hit. The Indians took advantage of the walks in the fourth to keep the bases loaded and scoring runs. Pat Kilkenny started for the Indians with Chuck Herrick, Ronnie Palmar, and Peck relieving. John McCabe started on the mound for the Dodgers with Jon O'Donnell taking over in the fourth.

In game action Monday night the scoring pace slowed down, with better pitching and less errors. The Braves took a 6-5 decision over a fighting Dodger team. The Dodgers opened the scoring as John McCabe stole home in top of the first after getting on on a walk. They picked up another run in each of the second and third innings and led the Braves 3-0. The Braves got their bats swinging to come up with four runs on four hits in the bottom of the third to take the lead. The Dodgers came

right back to punch across two more runs and take the lead again 5-4, getting three hits. In the bottom of the fourth, Kelly Green opened with a double and Larry Pettyjohn banged a homerun over left-center fence to score two runs putting the Braves back in the lead. The Braves then loaded the bases but the Dodgers held them with a force-out and two strikeouts. The Dodgers were up and down in order in the fifth and sixth innings and they put the Braves out in order in the bottom of the fifth to end the see-saw battle, 6-5 for the Braves.

Pettyjohn started on the mound for the Braves, Kevan Pratt took over in the fourth. John McCabe started for the Dodgers with Kit Anderson going on in the fourth.

Heppner's farm team will practice at 1 p.m. Saturday on the Little League field.

Disagreement Over How to Raise Taxes Prolongs Adjournment

Disagreement between the House and Senate over how to raise taxes has given the 1963 Legislature the dubious distinction of holding the longest session in history. The old mark was equalled Tuesday, May 21, on the 128th day.

Most legislators are hopeful that things will wind up late this week, however. But it all depends on whether the House and Senate can agree on a tax package.

Several weeks ago, the House voted to raise most of the \$60 million additional money needed by the state during the next two years by levying a 4c per pack cigarette tax, plus a "net receipts" income tax. This proposal went to the Senate.

Then, last week, the Senate Taxation Committee came out with a re-worked version of the tax bill, which completely eliminated the cigarette tax. The Senate Committee felt that the best approach was to rely on an even stiffer income tax.

The Senate proposal would raise approximately \$52 million in new revenue, all through increased income taxes. The House version would rely on income taxes for \$35 million and cigarette taxes for \$12 million.

Basically, this is what the

Senate proposal calls for: —A tax range of 3% to 7%. (The present rate scale is 3% to 9.5%).

—An increase in the personal exemption from the present \$600 to \$650, and in the case of joint returns, from the present \$1,200 to \$1,300.

—A reduction in the dependency exemptions from the present \$600 to \$400.

—A minimum tax (filing fee) of \$10, or \$20 on joint returns.

—Elimination of the federal tax deduction on state returns.

As reported several weeks ago, the House version also eliminates the federal deduction and calls for a flat 1% tax on all income up to \$16,000 or a flat 1½% tax on all income over \$16,000, with no deductions or exemptions. In addition to the flat scale, the House proposal would also impose a graduated tax, ranging from 1% to 6%, but in this area deductions would be allowed.

The House plan would substitute a \$22 credit on computed taxes, rather than the present \$600 personal and dependency deduction.

In simple terms, the Senate's tax plan would cost more, as far as income taxes are concerned. The House version would require a smaller income tax hike, since it could rely on cigarette taxes to obtain some revenue.

Either way, taxes will be raised.

Senator Anthony Yturri (R-Ontario) was one of the three members of the Senate Taxation Committee who voted against the program. He said he favors a cigarette tax and the House-passed "net receipts" approach. Other members voting with Yturri in committee were Senators Donald Husband (R-Eugene) and Vernon Cook (D-Gresham). Senators voting for the bill in committee were Chairman Boyd Overhulse (D-Madras), Robert Elfstrom (R-Salem), Walter Pearson (D-Portland), and Glen Stadler (R-Eugene).

The \$10 minimum tax feature in the Senate version would serve to broaden the tax base and obtain revenue from many low income taxpayers who now pay nothing.

"It was the feeling of the majority of the committee that since by far the major part of the state's expenditure was for education, those people having children to educate were equitably the ones who should be paying the cost," said Sen. Overhulse. "I am sure that every taxpayer with a family recognizes this fact and is willing to bear his share of the tax load."

House Speaker Clarence Bar-

Students Attend State FTA Meeting

Mary Johnson and Gail Hoskins, Heppner High school juniors, will attend the summer convention for Future Teachers Association on the Oregon College of Education campus, Monmouth, July 7 through 11. The girls were chosen by the faculty on the basis that they have shown an interest in a future career as a teacher.

Mary, daughter of Mr. and Mrs. Clarence Johnson, has been active in speech and dramatics this year. She has participated in two school plays and won best supporting actress in "Mr. Vincent." She is FBLA secretary, a member of the drill team, pep club, Girls' League and GAA.

Gail, the daughter of Mr. and Mrs. Fred Hoskins, is the newly elected Student Body secretary. She was Student Body historian this year and is a member of Quill and Scroll, Pep club, Girls' League and GAA. She will be president of FBLA next year.

ton (D-Coquille) spoke out against the Senate's tax plan. He particularly opposes the proposed reduction of the dependency allowance from \$600 to \$400.

"The House should insist on an equitable tax bill," said Barton. "It shouldn't be hesitant to spend plenty of time to resolve the tax situation to its satisfaction and for the good of the people of the state."

If the Senate approves its Taxation Committee's proposal, it would then go to a House-Senate conference committee, in an attempt to resolve their differences.

And while they're doing this, the one fear in their minds will be that the final plan also must not be too objectionable to the voters. For in Oregon, the people have the right to initiate a referendum and possibly overrule a new tax. They've done it before.
