State Bond Sales Said 'Excellent'

Sales of Series E and H Savings Bonds in Oregon in May were exceptionally good, according to figures received here today by County Savings Bonds Committee Chairman Jack Bedford. During last month, Oregonians purchased \$2,773,925 worth of United States Savings Bonds, an excellent record for the first month of the Freedom Bond Drive which concludes on July Fourth.

"While last month's sales were up only 1.2% compared to May of 1962," said Chairman Bedford, "we have to remember that last year's May sales were exceptionally high for the month. For example, our sales this year were \$226,000 greater than in May, 1961 and \$360,000 greater than they were in 1960."

"By the end of May, six Oregon cities had passed their Freedom Bond sales quotas, some of them by substantial amounts. These cities in the order that they reached their Freedom Bond Drive quota were as follows: Condon, Hermiston, Prineville, Cottage Grove, Burns, and Lakeview. Since all of these quotas were higher than actual sales in these cities for May and June combined last year, the achieving of the sales goals this early represents a real accomplishment," Chairman Bedford said.

Sales last month in this county amounted to a total of \$5,654 compared to \$5,172 last year. The county chairman expressed strong hopes that by July Fourth every family in the county having a regular income would "help his country while helping himself" by buying at least one extra Savings Bond.
