SPRINGING UP in the Heppner area are a number of "pre-built" or manufactured homes which are made by McNary Homes and hauled by truck in two sections to be placed on owners' lots. The above house, owned by Mr. and Mrs. Haskell Sharrard, was brought in last Wednesday and the picture was taken on Memorial Day on South Chase street after the two sections had been placed together. Eaves were not yet in place. (G-T Photo)

## Pre-Built Homes Offer Housing In Low Cost Range

Low cost modern housing with many of the conveniences that home owners seek to have in this present day is provided by pre-manufactured McNary Homes, Haskell Sharrard and Irvin Anderson, who have just become local dealers for the Homes, declare.

The homes, which feature two bedrooms, living-dining room, kitchen and bathroom, come in a two-part package, splitting the home lengthwise down the middle. Each home arrives in two truckloads, and assembling is done in a few hours, joining the two halves together on the owner's lot.

The second one to come to Heppner arrived May 29 on South Chase street on Sharrard's lot, and he and his family will occupy the home there. Previously Ray Ferguson purchased another of the homes that is located on the Willow Creek highway near the city limits.

A third McNary Home has been purchased by Mr. and Mrs. Harold Wright through Sharrard and Anderson and will be used as a residence for Mr. and Mrs. Tom Springer to replace the house that was destroyed by fire at the Wrights' place at Ruggs recently.

Speed with which the homes are assembled is evident in Sharrard's case. The sections were brought and placed Wednesday, and no work was done on Thursday (Memorial Day), but on Friday the crew moved back in to assemble eaves and install wall-to-wall carpeting which covers the entire floor except for the kitchen and bathroom. The Sharrards moved in a few days later.

He provided the lot and the foundation, together with sewer connections, and the company did the rest.

Rustic exterior of the home is in contrast with the ultra-modern interior. The kitchen has a built-in dishwasher and garbage disposal unit; combination

washer and dryer is hidden behind a cabinet door in the hallway; and the bathroom is a compact but convenient part of the structure with a clever shower curtain as one of its features.

All space is used to advantage with many cabinets provided. Sharrard is adding a small utility room and carport to his new home. Split shake shingles form the roof, and aluminum window sash are a part of the structure, with screens provided also in metal frames.

Before the company turns the home over to the owner, floors are cleaned, windows are washed, and carpets are vacuumed so that it is in top shape for the family to move in.

## Delegates Attend 22nd Girls State

Attending the 22nd annual session of Oregon Girls State at Willamette University in Salem this week are Marti Dixon and Jennifer Brindle, Heppner, and Arleta McCabe and DeLores Emert, of Lone. The girls were selected this spring by the American Legion Auxiliary units in each town.

The convention is sponsored annually by the state auxiliary organization. Theme this year is "It is Better to Light a Candle than to Curse the Dark," endeavoring in Girls State to help girls of high school age to light a candle to show the way into the future by encouraging good citizenship and love of democracy. They visit the State Capitol, set up their own mythical government, learn procedures in legislature in both state, county and city governments and live as self-governing citizens.

Memorial Day guests at the Jessie Griffin home were her sisters, Mrs. Gladys Walker of Portland and Mrs. Lillian Cook of Oregon City.

Bob Steagall entered Providence hospital, Portland, on Saturday where he underwent major surgery, following a recurrent illness of several weeks. His condition is reported as satisfactory and he expects to return to his home this week-end.
