

LEE PETTYJOHN (second from left) points out ranching developments that won him the 1962 Conservation Man of the Year award, sponsored by the Oregon Wheat Growers League. Occasion was the annual Conservation Field Day, held this week at the Weatherford-Pettyjohn ranch near Arlington.

## Arlington Ranch Hosts 100 Guests For Field Day

Nearly one hundred wheat growers and farm implement dealers attended this week's Conservation Field Day, an annual event sponsored by the Oregon Wheat Growers League.

The all-day program was held at the Weatherford-Pettyjohn Circle W Ranch near Arlington, and featured Dr. J. H. Jensen, president of Oregon State University, who gave a luncheon address.

Inspection of the 16,000-acre ranch provided visitors with a first-hand look at the conservation practices which won for manager Lee Pettyjohn the Wheat League's 1962 Conservation Man of the Year award. Pettyjohn operates the family-owned spread in partnership with Harrison Weatherford, Albany, and Dr. John Runkel, Portland.

"Will it pay?" and "Can we do it with machinery available?" are the questions asked of each conservation practice introduced at the Circle W, according to the three partners. They stressed to the visiting group that current Circle W conservation programs are a continuation of those introduced by Mark V. Weatherford, pioneering Gilliam county rancher who died last year.

Addressing a morning meeting at the ranch headquarters, David Childs, neighbor and long-time friend of the Circle W proprietors, traced the history of the operation and the effects of conservation practices on its prosperous growth. He was followed by Howard Eubanks,

## Lice Sprayings Proved Successful

A practical method of eradicating cattle lice on a herd basis has been demonstrated in an experimental herd at the Agricultural Research Center, Beltsville, Maryland.

This eradication method, proved over a 5-year period, should be of value to livestock producers. Measures that effectively control but do not eradicate cattle lice have been in use many years.

Lice eradication in the Beltsville herd was carried out by entomologist D. W. Anthony, veterinarian L. O. Mott, and animal caretaker G. D. Mills. The success of the method, they say, depends on timing insecticide treatments to break the life cycle of the lice, plus quarantining and treating all newly introduced cattle.

To eradicate short and long-nosed cattle lice and cattle biting lice, all cattle in the herd were given two thorough sprayings, 14 days apart, with malathion, an insecticide used for jouse control on nonmilking cattle. All cattle brought into the herd were kept in quarantine while receiving this 2-spray treatment. The study was made in the herd used for animal disease and parasite research.

Although most insecticides that are safe for use against lice on livestock will kill all lice past the egg stage, they are not completely effective against lice eggs, especially under pasture conditions, the scientists say. Therefore, some lice will hatch from eggs after the first treatment. The second spraying, if properly timed kills these newly hatched lice before they can mature and produce eggs.

The Beltsville herd was first treated in October 1957. In the following months, no lice could be found on the animals. But to insure eradication, the herd again received the spray treatment the next April.

Periodic examination of the herd revealed no lice until October, 1959, when a yearling heifer on pasture was found infested. Although cattle in the same pasture and in adjoining pastures had no lice, both groups were given two sprayings. No lice have been found in this herd since the treatments, although about 90 animals have

been treated. The annual farming conservation contest was inaugurated by the Wheat League in 1948. Candidates are selected from each of the major wheat-growing counties from which a statewide winner is chosen by the League's program committee.

## Homes Abound with Potential Poisons, AMA Official Warns

Children, supposedly "safe at home," are poisoning themselves at the rate of nearly 1,500 a day. "When you consider that more than a quarter million home-used products on the market contain toxins, it is not difficult to understand why more than 500 children die each year from self-administered poisons," said F. J. L. Blasingame, M.D., executive vice-president of the American Medical Association.

Children are naturally curious, especially the very young ones. They are prone to stick into their mouths anything they can get in their hands. It doesn't even have to taste good or look pretty.

Most accidental poisonings occur in children under five. Two-year-olds are the most poison prone, with one-year-olds close behind. At this stage in life their curiosity is at its height and their sense of fear not yet developed, Dr. Blasingame explained.

Medicine, especially aspirin, heads the list of items children seem to like to sample, accounting for nearly half of all accidental poisonings. In fact, too much of virtually any medicine can produce serious consequences.

Among the supposed non-edibles that frequently find their way into children's stomachs are cleaning and polishing agents, detergents, shoe polish, cosmetics, waxes, insecticides, paint, turpentine, chalk, bleaches, plant foods, plaster, perfume and decorations.

Medicines account for nearly half of all accidental poisoning in United States each year. Discard unused medicine and keep rest out of children's reach.

A primary cause of such accidents, says Dr. Blasingame, is storing poisonous substances in food containers or soft drink bottles. A toddler just naturally assumes that a soft drink bottle contains a treat. He'll drink whatever he finds in it. "The facts are clear," he warned. "Between 65 and 70 per cent of all poisonings take place because an item was accessible to a child.

"If we're going to live in modern homes with modern conveniences and modern medicines, we have to develop some up-to-date standards that will make home safe for our children."

Among suggestions for lessening the poisoning hazards in the home, Dr. Blasingame suggested:

- Keep potential poisons out of reach and tightly sealed.
- Never transfer toxic materials into household utensils.
- Don't leave your child alone in a room in which you're working with poisons.
- Give medicines only in a lighted room.
- If your child might have taken a poisonous substance, call your doctor for instructions at once. Don't wait to see what happens.

## Court Proceedings

County Court met in regular session on May 1, 1963. The minutes of the previous term were read and approved.

The offer of the Corps of Engineers for the fair buildings at Boardman was accepted.

Ronald Black was appointed to fill the unexpired term of George Wiese for the Vector Control District at Boardman.

The following amounts were transferred: \$224.67 from the Amusement Device Tax fund to the Gen. Fund; \$3231.72 from the Alcohol Cont. Fund to the Gen. Fund; \$24,870.72 from the Motor License Fund to the Gen. Road Fund.

Larry Cook was appointed Just of the Peace, Pro-tem, in the absence of Oliver Creswick.

The following warrants were issued on the General Fund:

## Lamb Finishing Aids In Marketing Prices

Slaughter lambs that will grade choice or better and weigh between 85 and 105 pounds can be put on the market as soon as possible. It is not necessary to go above choice grade on lambs, and the market would actually prefer lambs out of prime grade. These lambs will carry more finish than is desirable for the market.

Unfortunately, all lambs will not be ready to go to market on the same date. This necessitates taking out a few lambs at a time, causing inconvenience from the marketing standpoint. However, it will pay the sheep producer high dividends. A pooling operation within a locality will help a great deal in solving some of these problems.

## NOTICE OF 1963-64 BUDGET MEETING

In accordance with the provisions of the "Local Budget Law" (ORS 294.305 to 294.415), notice is hereby given that the budget committee of Heppner Cemetery Maintenance District, Heppner, Oregon, in compliance with said law, prepared and adopted on June 10, 1963, the budget estimates for Heppner Cemetery Maintenance District, Heppner, Oregon, for the ensuing fiscal year July 1, 1963, to June 30, 1964, as set forth in the accompanying schedules. All persons are hereby notified that on Wednesday the 3rd day of July, 1963, at 7 P. M., in the District Office at 630 N. Main Street, Heppner, Oregon, said budget estimates may be discussed with the Levying Board, for Heppner Cemetery Maintenance District, Heppner, Oregon, and any person subject to the proposed tax levy or tax levies will be heard in favor of or against said proposed tax levy or tax levies or any part thereof.

The outstanding indebtedness of Heppner Cemetery Maintenance District, Heppner, Oregon, at June 10, 1963, was as follows:

NATURE OF OBLIGATION	AMOUNT
None	None

Signed: C. A. Ruggles, Chairman Budget Committee; Willard Blake, Secretary Budget Committee; E. K. Schaffitz, Member Budget Committee; John A. Pfeiffer, Member Budget Committee; Paul W. Jones, Member Budget Committee; Elaine S. George, Member Budget Committee.

## Summary Of Estimated Expenditures, Receipts and Tax Levies Fiscal Year 1963-64

Item No.	1963-64 TAX LEVY CALCULATION (1)	Total All Funds (2)
1. Total Estimated Expenditures (Schedule III, Column 8)		\$ 14,223.14
2. Reserve for Estimated Amounts not to be Expended This Year		10,595.00
3. Transfers as Specifically Directed by Law		855.00
4. Total Estimated Expenditures, Reserves and Transfers		25,673.14
5. Deduct—Est. Receipts Other Than 1963-64 Taxes (Sch. IV, Col. 8)		23,060.00
6. Amount Necessary to Balance the Budget		2,613.14
7. Add: Est. Amt. of 1963-64 Taxes that will not be Rec'd. 6-30-64		130.00
8. Total Levy Needed for 1963-64		2,743.14
9. Tax Levies: Inside 6% Limitation		2,743.14

## Summary Of Estimated Expenditures, Receipts and Tax Levies Fiscal Year 1962-63

Item No.	1962-63 TAX LEVY COMPUTATION (1)	Total All Funds (2)
1. Total Estimated Expenditures (Schedule III, Column 5)		\$ 14,849.39
2. Reserve for Estimated Amounts not to be Expended This Year		Not Shown
3. Transfers as Specifically Directed by Law		Not Shown
4. Total Estimated Expenditures, Reserves and Transfers		14,849.39
5. Deduct—Est. Receipts Other than 1962-63 Taxes (Sch. IV, Col. 8)		14,849.39
6. Amount Necessary to Balance Budget		None
8. Total Levy Needed for 1962-63		None
