

Improving Papers Theme of Conclave

Ways to improve newspapers form the central theme for the 76th annual meeting of the Oregon Newspaper Publishers Association. The convention will be at the Courtel in Coos Bay, June 20 to 22.

Mr. and Mrs. Wes Sherman will represent the Gazette-Times at the convention.

Speakers from California, Washington and Oregon will address the meeting. Bert Stolpe, publisher of San Gabriel Valley newspapers and formerly with the Des Moines Register and Tribune; George E. Hooper, San Francisco manager of the Bureau of Advertising; Mrs. G. P. Carlberg, advertising manager of Zellerbach Paper Company in San Francisco; and the Rev. Edward Greenfield, minister of Church of Reflections, Knott's

Father Succumbs

Gordon Hutchens of Heppner was called to Hillsboro upon the death of his father, H. Earl Hutchens, 71, who died in that city June 5 after a two-year illness. Services were in Hammack, Donelson and Sewell Mortuary in Hillsboro on June 8.

Berry Farm, are coming from California.

Robert L. Twiss, aviation editor of the Seattle Times, is the only speaker from Washington. Clarence Barton, speaker of the House, will discuss the Oregon legislative session. Other speakers include: William L. Mainwaring, Salem Capital Journal; Robert Van Leer, Curry County Reporter at Gold Beach; Mr. and Mrs. Richard Keusink, Brookings-Harbor Pilot; and Hans Running of Forest Grove.

While in the area the newspapermen will visit the Menasha Paper Mill and inspect the Pacific Power and Light Company's project which is pump-

College Transfer Courses Offered At Blue Mountain

Beginning fall quarter, 1963, Blue Mountain Community College will add college transfer courses for students who plan to continue towards a bachelor's degree at a senior college. The two years of lower division collegiate studies is general in nature, and students who complete all requirements may select a major field of specialization.

The two lower-division years provide broad general education and a foundation for specialization during the junior and senior years in some field in the liberal arts and sciences or in a professional or technical curriculum. For students uncertain about their educational or professional goals, the lower division offers the opportunity to explore several fields of study to help determine special interests and aptitudes.

Lower division collegiate courses offered by Blue Mountain Community College are ac-

ceptable for transfer to all state institutions of higher education in Oregon. Credits earned at BMCC are also transferrable to institutions of higher education in other states. If a student plans to transfer out of state after completing course work at BMCC contact should be made in advance through the director's office with that institution.

All students planning to attend Blue Mountain Community College are required to take placement examinations which at the Cicle W, according to the summer prior to the beginning of fall quarter. Placement examinations will be administered to the first group Tuesday and Wednesday evenings, July 9 and 10, from 7 to 10 p.m. Students will be notified by mail when they are scheduled for the examinations.

The purposes of the placement tests are twofold. First, students who fall below an accepted norm will be required to take basic work in English and/or

mathematics. Second, personal conferences will be arranged with each student prior to the opening of school to assist in planning the student's program of study. There is no charge to the student for the examinations.

It is important for students who plan to attend Blue Mountain Community College to submit an Application for Admission as soon as possible. These forms as well as college catalogs can be secured by contacting the office of Director of Admissions.

The college admissions office will be kept open throughout the summer months to provide information on all phases of the educational program. The office is located on the second floor of the John Murray Junior High school at S. E. Third Street. The phone number in Pendleton is 276-1291.

Money receipt books in duplicate and triplicate are on sale at the Gazette-Times.

Range Research Report Feature Of Field Day

More and better grass from sagebrush-bunchgrass range that blankets much of Eastern Oregon will be featured at a special June 25 field day at the Oregon State University Squaw Butte Experiment Station range.

Past, present, and future research will be discussed during a 9 a.m. to 3:30 p.m. tour of the range, 42 miles west of Burns on U. S. Highway 20, reports W. A. Sawyer, station superintendent, and Forrest A. Sneva, range management researcher.

Noon lunch will be served for a nominal charge.

Four highlights will include grass variety trials and their response to nitrogen fertilizer, use of fertilizer for early spring production of crested wheatgrass,

ad digestibility trials to evaluate three range grasses. Premature curing forage grasses for high-quality late season and winter grazing is another point of major interest. Visitors also can see how grass and beef production has been boosted in 10 years following brush control with 2,4-D spray.

While sagebrush and cows "make grass work harder," eliminating cows doesn't solve all the grass problems, Sawyer says. Effects of 27 years' non-use of range by livestock will help tell this story, he adds.

Discussion is also scheduled on amounts and types of feed supplements for specified gains of yearling beef animals grazing summer-long on crested wheatgrass pasture.
