Services Held For E. Burnside In Spray Church

By BETTY ASHMEAD

SPRAY — Funeral services were held Tuesday, October 1, in the Spray Baptist church for Emery Burnside who died suddenly Friday, September 27. Mr. Burnside passed away quietly while watching television at his home. His wife had just stepped into the other room for a few minutes and she thought she heard him laugh. When she went in to see him she found him in his chair as though he was asleep. She was deeply shocked as he had not been ill at any time.

His survivors are his wife, Cora, four children and 14 step-children.
Frank Redze of Fossil performed the memorial service.

IRRIGON NEWS

(Held over from last week)

Mrs. Josie Buchanan and Mr. and Mrs. Herman Havekost drove to Enterprise recently to visit the ladies' brother, Harold Ahalt, who was a patient at the Enterprise hospital due to injuries sustained while in the mountains in the Lostine River area. Ahalt was thrown from his Honda while riding up a steep, narrow mountain trail, landing on his back on the sharp boulders below. Unable to walk, he crawled back to the trail, a slow process that took approximately 5 hours.

As it was growing dusk, he crawled to a nearby cabin and set it afire to attract attention. He was discovered there by a forest ranger around 11:00 p.m. The ranger went for help, and he and another fellow carried Ahalt on a stretcher to the bottom of the mountain, where the ambulance was waiting to take him to the Enterprise hospital. They reached the hospital around 9:00 a.m. the next morning. Ahalt escaped without any broken bones, but has numerous bruises over his body. He was transferred to the Veterans hospital at Walla Walla, and is making steady progress.

Two Bag Game with Bows
Perry Pummel, along with Charlie Young of Hermiston, met with success with their bows and arrows recently. The two men left for the mountains Wednesday evening and camped in the Mt. Emily area. The Complete Food Store is sponsoring a bowling team this year, that competes during the Wednesday morning league play. Those from Irrigon on the team are Mrs. Lloyd Berger, Mrs. Ollis Lathrop and Mrs. John Swearingen.

High School Wheat Contest Announced

Interest in the production and marketing of wheat, sparked by last spring's nationwide wheat referendum and recent international developments, is stimulating participation in its high school newspaper article contest. The sponsoring Oregon Wheat Growers League reported this week.

L. E. Kaseberg, League president, said that closing date for the contest is October 31.

"Advantages of Wheat in the Everyday Diet" and "Production and Marketing of Oregon Wheat" are the two subjects selected by the Wheat League for this year's contest. All students in grades nine through 12, with the exception of those whose parents are officers of the Wheat Growers League or the Wheat Commission, are eligible.

Cash awards will be \$75, first; \$50 second, \$35 third and \$15 fourth. The winning papers will be published in a number of Oregon newspapers and farm journals, he said, and the winning student will be the Wheat League's guest at its annual meeting in December.

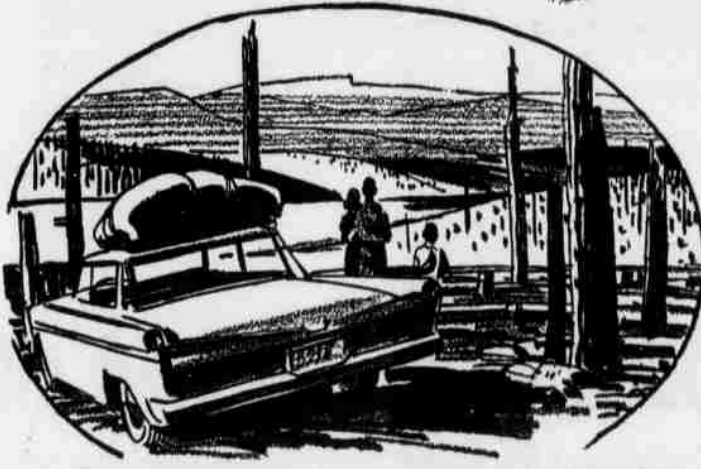

Entries will be judged, the League president reported, on originality, research, subject matter, spelling and composition, and conclusion or summary.

Contest information and rules have been mailed to all Oregon high schools. Further information may be obtained by writing to the Oregon Wheat Growers League, P. O. Box 400, Pendleton.

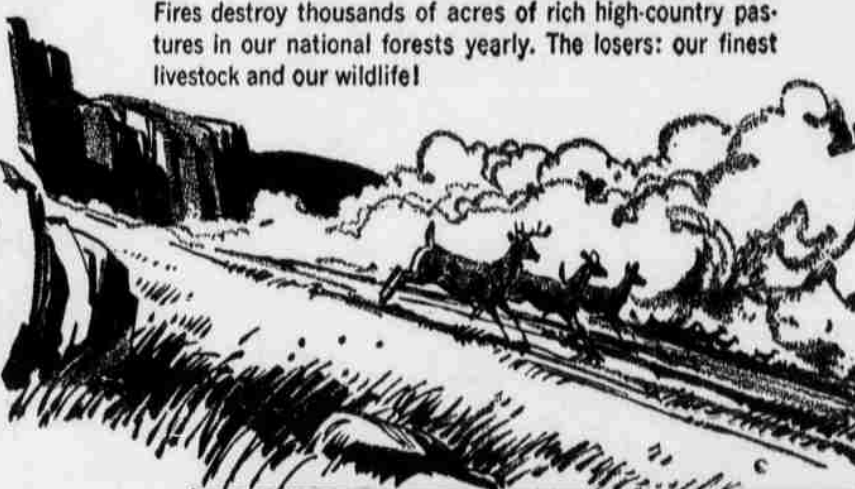

ALL THIS TRAGEDY CAUSED BY MAN

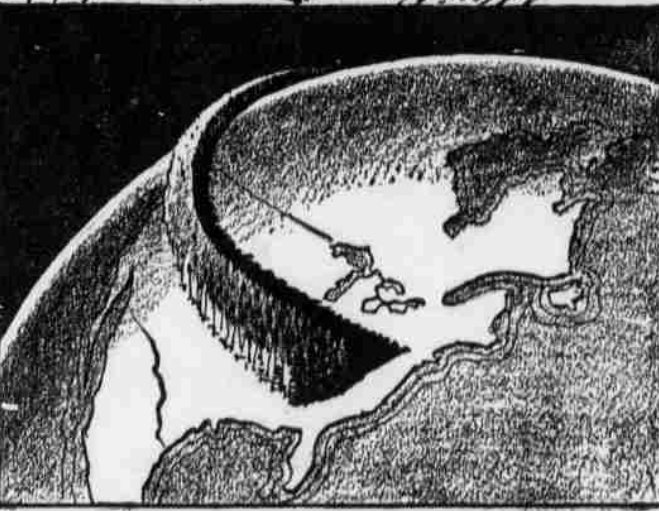

Carelessness still starts 9 out of 10 forest fires

AMERICA'S BEST GRAZING LAND IS SHRINKING!
Fires destroy thousands of acres of rich high-country pastures in our national forests yearly. The losers: our finest livestock and our wildlife!

MULTI-MILLION DOLLAR FLOODS FOLLOW FIRES! Soil burned bare by forest fires can't hold rainwater. The rainwater runs off uncontrollably, builds from streams to torrents to devastating floods. People down, and towns suffer ruinous damage.

FOUR MILLION ACRES OF TIMBER DESTROYED EVERY YEAR! Forest fires annually burn enough timber to form a belt 1½ miles wide stretching from Anchorage, Alaska, to Richmond, Virginia!

And most of this never happen because nine out of ten forest fires are man-caused!

Remember—only YOU can PREVENT FOREST FIRES!
