1963 Tourists Here Spend \$220 Million

Out-of-state visitors traveling in Oregon spent an estimated \$220 million in the state during 1963, it was announced today by Forrest Cooper, state highway engineer.

Cooper said that a survey recently completed by the State Highway Department revealed that the revenue from visitors had exceeded the previous record of 1962 by 1.4 per cent. The Seattle World's Fair boosted all tourist traffic in the Pacific Northwest last year.

Cooper said the \$220 million expenditure represented money spent for food, lodging, recreation, car expenses and other miscellaneous items.

The increase in revenue from out-of-state visitors was credited to both an increase in the average daily expenditure and an increase in the number of days each visitor spent in Oregon.

Expenditures by travelers in out-of-state cars were estimated from thousands of interviews taken during four seasonal periods at locations on all major highways in the state.

Cooper said the survey included travelers in passenger cars, charter buses, airplanes, trains, and non-charter buses. Commuter trips of out-of-state residents employed in Oregon and trips into the state for the purpose of shopping were not included in the estimates.
