Ford Wins Motor Trend's "Car of the Year" Award

January 8: Motor Trend magazine's "Car of the Year" Award goes to an engineering breakthrough! It honors all the '64s from Ford "For engineering advancement in the concept of Total Performance, proven in open competition."

Thunderbird, Falcon, Super Torque Ford, Fairlane (reading counterclockwise); winners of Motor Trend's "Car of the Year" Award

Here's what the Motor Trend Award means to you...

The editors of Motor Trend, America's largest general automotive magazine, watched Ford's total performance in open competition... saw competition-modified Fords win every 500-mile stock car race in the last year, saw Ford-built engines end an era at Indianapolis and sweep the sports car circuits.

Then they drove the 1964 Fords, Falcons, Fairlanes and Thunderbirds and discovered how the lessons of open competition have helped breed into them a new kind of total performance for the open road, for your kind of driving. And then they made their award!

The "Car of the Year" Award is an impressive testimonial, but see for yourself—take the wheel of a '64 from Ford. These cars speak for themselves with their ease of handling in a supermarket parking lot or their greater stability on a rain-slick blacktop.

Before you buy any new car this year, test-drive total performance in a Solid, Silent Super Torque Ford, now hundreds of pounds more car than anything in its field. Try America's only total performance compact, the Falcon V-8, totally new, totally changed. Or, any of the '64 Cars of the Year from Ford!
