Authentic as the ground he's standing on—Lee Riders

Even with his back turned, you know he's tough as nails. Lean, brawny, sure-footed. So are his Lee Riders. Real western pants. Lee Riders are cut skin-tight to grip the saddle sure and straight. But don't be surprised to see them at the helm of a boat. That tight-twisted Sanforized denim doesn't mind sea spray any more than a sand storm. Wear the pants bred in the west. Look for Lee, with the authentic branded label.

Same Rates Set For Deductions On Wool Payments

Deductions from wool program incentive payments for 1964 to finance the wool and lamb produced self-help promotion program will continue at the same rates as in the past, David McLeod, manager, Agricultural Stabilization and Conservation Service office, announces.

Deduction rates will be one cent per pound from shorn wool payments, and 5 cents per hundred pounds of liveweight from unshorn lamb payment. These rates are the same as those made from payments received by producers since the beginning of the program.

The 1964 marketing year is the calendar year, January 1 through December 31. Payments for wool and lambs sold this year will be made beginning in April, 1965.

McLeod pointed out that the promotion is conducted by the American Sheep Producers Council, Inc., under an agreement with the Secretary of Agriculture providing for advertising, sales promotion, and related market development activities on wool and lamb, as authorized under the National Wool Act. The present agreement—covering the years 1962-65—was approved in a producer referendum held in 1962.

For the 1962 year—the latest for which complete figures are available—deductions from payments for financing the council's activities totaled about \$2.8 million.
