Family Day Set For Big Round-Up

"Family Day" at the Pendleton Round-Up will be September 16. The event was started three years ago to give a family a full day at the Round-Up and Happy Canyon, plus a big Beef Barbecue at a nominal price for the entire family. The event has grown each year.

The service clubs of Pendleton stage the entire event in the Round-Up arena as soon as the last event—the wild horse race—is finished.

Last year they set up and fed some 4000 people in one hour's time. This year they hope to feed 5000 in the same time. This calls for the preparation of 2500 pounds of choice beef, plus beans, cole slaw, hot rolls and milk and coffee in gigantic amounts.

Pony rides, stage coach rides, and many events of entertainment are furnished to fill the gap of time between Round-Up and the start of the big night show—Happy Canyon.

Round-Up President Verne Terjeson and Happy Canyon President Bob Fletcher, Sr. urge all persons interested in taking advantage of the big family day plan to write Round-Up, Box 609, Pendleton.

I REMEMBER WHEN
Since my children regard me as an ancient, it set me wondering about just how many things I can remember in the agricultural line. Such memories have practically no value except perhaps to show how fast agriculture has progressed in Jack Benny's 39 years.

I remember when you bought eggs at the store you expected a few rotten ones to show up frequently. I remember when eggs were sold in a sack rather than a carton and they were picked out of a basket of straw in the store.

I remember when any food stuffs became frozen they were thrown away because they were considered spoiled. I remember buying 25 cents' worth of hamburger and asking the butcher, "Mom says to throw in a soup bone."

I remember buying milk in a syrup bucket before there was pasteurization, and long before homogenized milk was even thought of by dairies.

I remember when it was considered the height of luxury to buy bread from a bakery at 10 cents a loaf.

I remember when all our fruit came in packages as dried fruit, and a pocketful of dried prunes, apricots, apples or peaches was a great treat.

I remember when we bought sugar and flour in 100-pound bags and didn't know it came in smaller sizes.

I remember storing hams and bacon in flax bins to keep them longer, and I remember gathering around the iceman to catch the chips from his ice pick on a hot summer day.

These things I remember since they all happened in the last 39 years, which goes to show what improvements have been made in this nation in three decades. In most nations of the world, people don't have to remember such things. They are still in vogue.

AROUND THE TURN AND HEADING FOR HOME! A record number of thoroughbred race horses are set to compete on the new five-eighths mile track during the Oregon State Fair, September 4-12 in Salem. Attendance at the races is on the increase, with nearly 50,000 spectators watching the meet in 1963.

The Harold Wright family spent Sunday in Monument visiting Mrs. Wright's mother, Mrs. Wave Jackson, and her brother and sister-in-law, Mr. and Mrs. Hugh Jackson and family, who were there from Portland.

Traveling to Richland, Wn. to attend a priesthood leadership meeting for the Heppner LDS church on Sunday was Arnold Raymond. He was accompanied by his wife, Valerie and children.

Seamers in Fair

The four summer meetings of the Teen Seamers sewing club were held in the basement of St. Williams Catholic church in Ione. No business meetings were held as we used the time entirely for sewing in order to get ready for the fair. On August 6, our annual Mother's Tea was held at the Alfred Nelson Jr. home. The girls modeled their outfits for the visiting mothers. Pam Proudfoot, a former member of the club, attended as a special guest. Our club is now preparing to set up a booth at the fair.

Nearly 150 members, their guests, and wives are expected to attend the all-day session which will include a business meeting, buffet lunch, general program, social hour and steak feed. President Leonard Lively, Wallawa, will conduct the meeting at Gunther's Fireside meeting room.

Ray Ayers has been taking a "semi-vacation" from M and R Company this week but says he will be back steady on the job next week. He took a trip to Portland early this week and has been checking in at the office handling necessary service calls on heating and refrigeration but has attempted to get in some vacation time at home.
