## Ballot Measure #3 Is a Pig-In-A-Poke that Would Increase Labor Costs WITHOUT Increasing Take-Home Pay!

An inefficient jungle of red tape would result from the state insurance monopoly proposed by Measure 3. It would impose an extra burden on hard-working state employees. Confusion would replace the cost-cutting efficiency of our present competitive system. The cost of labor would be driven skyward—but workers themselves would gain NO take-home pay from this increased cost!

Just the opposite. The extra cost burden would make it harder for employers to raise wages and pay for other benefits.

In thousands of cases, workers would actually be forced to pay for coverage now furnished free by employers.

- Workers would be hurt**  
by red-tape-caused slowdowns in claim payments  
by delays in getting specialized medical attention  
by elimination of accident prevention programs
- Consumers would be hurt**  
by increased costs  
by increased taxes  
by elimination of competition
- Industry would be hurt**  
by weakened relationships with employees  
by weakened competitive position with out-of-state industry  
by loss of freedom to select the best insurance

- Increase Costs to Consumers and Taxpayers
- Eliminate Freedom of Choice in Job-Injury Insurance
- Hurt Free Enterprise
